Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.

Martis Camp Member Online Petition
Opposing the Proposed Abandonment of Mill Site Road

We, the undersigned, are members of the Martis Camp Community Association. As full-time and part-time residents of Placer County, and as taxpayers in the County, we appreciate the opportunity to communicate our strong and unified opposition to the proposal to abandon or vacate Mill Site Road, and request that the Board of Supervisors reject the proposal.

Since the dedication of this public road many years ago, we have had access to the Northstar facilities for the following necessary purposes:

• To transport to Northstar those members of our community who cannot safely ski down the expert slopes of Lookout Mountain to the Martis Camp Express lift, namely, young children attending the ski school in Northstar and less skilled skiers.

• Mill Site Road is necessary to our use of the many commercial and recreational amenities at Northstar, including the restaurants, the skating rink, the movie theatre, the biking and hiking trails, the ski school, and the shops, as well as to our ability to attend the many special events .

The access to Mill Site Road provides a straightforward, safe, cost-efficient and quick route to Northstar, reducing the congestion and additional noise and environmental pollution inherent in the much longer drive involved in using Hwy 267. There is no available alternate route between Martis Camp and Northstar that offers anywhere near the same access advantages. We realize the use of this route comes with certain obligations and responsibilities and we are dedicated to using the road in a safe and courteous manner.

For the above reasons, we strongly oppose the "privatization" of this public street, long irrevocably dedicated to the County as part of the development of the Retreat, for the benefit of less than a handful of property owners in the Retreat.
