Introduction

As the Local Enforcement Agency (LEA), Environmental Health Services is certified by CalRecycle to enforce state laws and regulations at solid waste facilities within its jurisdiction. The Materials Recovery facility operates under a Solid Waste Facility Permit (SWFP) issued by the LEA. The Western Placer Waste Management Authority has filed documents with the LEA [Transfer Processing (TPR) and Report of Composting Site Information (RCSI)] which describe the design and operation of the facility.

Description of Project

Expansion of the existing composting operation

Local Enforcement Agency's Determination

On 6-27-11 the LEA received an application for a Revised Permit, along with related updates to the TPR and RSCI documents. The LEA reviewed the application package and determined that it is complete and correct on July 11, 2011. The proposed changes are consistent with California Environmental Quality Act documents and State Minimum Standards, The proposed changes are significant as defined in California Code of Regulations (CCR), Title 27, section 21563(d)(6) and therefore require a revision to the terms and conditions of the current Solid Waste Facilities Permit.

As required by 27 CCR 21660.1, the LEA is conducting this informational meeting for the purpose of noticing its acceptance of the revised TPR and RCSI and intention to issue a revised Solid Waste Facilities Permit.
