Learning Conversation

March 15, 2007

FIRST 5
PLACER
Children & Families Commission
379 Nevada Street, Auburn, 95603 530.886.1869 (fax 530.886.1810)

Outcomes

- Families with children 0-5 served by the North Tahoe Family Resource Center are raising healthy children.

- A sustainability plan (including financial and social capital) will exist for the North Tahoe Family Resource Center.

Performance Measures

- Demographics
- Sustainability plan
- Placer Outcomes screening forms
- Stories and pictures

Demographics

- Let’s look at the demographic tool together!

Sustainability Plan

- Fundraising events $6,623
- Donations $12,823
- Grants $30,928
- Seeking other funding opportunities
- Finished the Strategies Sustainability Project
- New strategic Plan later this year will include a comprehensive sustainability plan

Stories and Pictures

Families with children 0-5 served by the North Tahoe Family Resource Center are raising healthy children.

Lupe* was 17 years old and pregnant when she first connected with an FRC Advocate. She presented as a happy and healthy teenager who was receiving ongoing pre-natal care. She expressed interest in parenting classes since she was nervous about caring for her first child. Lupe has a strong support network of friends and family. She had dropped out of school because of the pregnancy. Through working with an FRC Advocate, Lupe decided to enroll in the STEPP program where she receives parenting education and is working to earn her high school diploma. After the child is born, the program will provide childcare while she is in class. Lupe was also connected to resources for nutrition education and nutritious foods, transportation, family planning & health insurance.

A sustainability plan including social capitol will exist for NTFRC

A mother of 4 children came to the FRC for support with completing a Healthy Families application. Through talking with an advocate, she was connected to classes about child development, pre-reading skills, CPR, First Aid and conflict resolution. The FRC supported her as she worked to earn her childcare license. She will now mentor another young woman in the community as she earns her own childcare license.
