Property System File Downloads

MEDIA

Data downloads are available on CD-ROM or as an FTP to your site.

FORMAT

For full county data sets, are available in CSV (comma separated values) format. The first record of each file contains the field headings. This format is commonly accepted by most Windows software. It is also easily read by Macintosh and Unix systems. This format is quite compact and typically requires only one CD.

ORDERING

You may order by e-mail or using the attached Request for data.

PAYMENT

County statute requires receipt of payment prior to our release of the data. Currently we are only able to accept checks or cash for payment.

FILES

AsmtMaster.csv	\$900	
CertifiedValues.2011.csv	(no additional charges if any of the above files have been purchased)	
AsmtTracking.csv	(no additional charges if any of the above files have been purchased)	
TransferHistory.csv	\$1020	
PropChar.csv	\$6820	

In addition, to help in deciphering the numerous codes used in the system, the following Access 2000 database with several tables containing code descriptions is included.

Codes.mdb (no additional charge if any of the above files have been purchased)

AsrCodeList contains codes used in most of the system.

PCCodeList contains codes that are unique to the Property Characteristics file.

DocumentCodes Type of document in Transfer history.

ExemptionCodes

LandUse codes AKA Use code.

Mapbook Describes the meaning of the first 3 digits of the assessment number for

numbers greater than "800".

TaxabilityCode Indicates whether the assessment will go to the Taxroll or not. Also shows

whether there is a business (ending in 1) or is on Prop8 (starting with 8).

Property System File Downloads

FILE LAYOUTS

The first record of each file consists of the field names for that file. Importing these files into Access or Excel with the "First record contains field headings" box checked is advised.
