NOTICE OF AVAILABILITY OF A FINAL EIR FOR PUBLIC REVIEW

The Final Environmental Impact Report for the following project has been released by Placer County:

PROJECT NAME: **Applegate Regional Sewer Pipeline Project** (PEIR 20100368 /State Clearinghouse #2008082116)

REVIEW PERIOD: November 21, 2011 - November 30, 2011

PROJECT DESCRIPTION: The Proposed Project would decommission the treatment ponds at the Applegate Wastewater Treatment Plant (WWTP) and install pump stations and a force main to convey Applegate's wastewater to the existing sewer collection system that flows to the SMD 1 WWTP. If determined necessary, a portion of the existing SMD 1 collection system in the Winchester subdivision would also be upgraded to accommodate the additional flows from Applegate. The wastewater would be treated at the SMD 1 WWTP and discharged to Rock Creek.

PROJECT LOCATION: The project area includes the Applegate WWTP (approximately 8 miles northeast of Auburn) and site of the proposed 4-mile pipeline, from the Applegate WWTP to the existing pipeline system at Winchester Club Drive west of Sugar Pine Road, in Placer County, CA.

The Draft EIR, circulated to the public June 17, 2001 - August 1, 2011, determined that all impacts could be reduced to less-than-significant levels with mitigation.

The Final EIR consists of (1) Introduction, (2) Comment Letters and Responses to Comments on the Draft EIR, (3) Revisions and Errata to the Draft EIR text, and (4) A Mitigation Monitoring and Reporting Plan. Any comments on the Final EIR should be forwarded to the following address no later than 5:00 pm on **November 30, 2011** to be included in the materials to be sent to the Board of Supervisors. The Placer County Board of Supervisors will consider this proposal at an up-coming public hearing. Property owners within 300 feet, at a minimum, of the project area will be notified of the hearing.
