

Claudette Mitchel-Weismantle

As a native Californian born in Oakland, California at Lake Merit Hospital. My early years were divided between the East Bay, the Nevada side of Lake Tahoe, specifically Cave Rock, Carson City and Placerville. I graduated from El Dorado High School, Placerville, CA, earned a Bachelor of Science and California State Teaching Credentials from California State University Hayward, now known as Cal State, East Bay and earned a Masters in Art through the John F. Kennedy University, Berkeley Campus. Presently I hold active Credentials in Physical Education major/minor in Dance; Psychology; Social Science; Biology & General Sciences.

I have taught throughout the East Bay in adapted Physical Education; Kindergarten through Adult Education. For over twenty-five years I have taught Biology and the Visual Arts in the Grant Union High School District, Sacramento, CA.

Through-out my teaching years, I served as a site Teacher Union Representative and served as a team member with contract negotiations.

I am now, retired with more than 30 years teaching experience.

I live in the farthest western reaches of Placer County since 1982. Retirement allows me the time to learn to ride Western Pleasure and the ability to spend more time with my husband, our cats, dogs, a couple of wonderful horses, and garden.

I presently serve as a Board Member of PlacerArts. I have had the good fortune to serve on the Municipal Advisory Committee in District #1 with several of our elected supervisors since February 17, 1994.

Serving on the MAC has assisted me, my family and my community with the ability to stay informed; maintain a connection within our community and the various community services offered. This gives the community and individuals the ability to have their needs and concerns directed to specific county departments, county employees and elected officials as appropriate. I see the MAC as a powerful tool to help maintain and improve our community.
