In accordance with Section 2279 of the California Food and Agricultural Code, each county agricultural commissioner prepares an annual crop report for submission to the Secretary of the California Department of Food and Agriculture.

The crop report provides information on acreage, yield, and value of agricultural products.

In Placer County for 2006, the leading agricultural industry was Nursery products, followed by Timber products.

The grand total for agricultural productivity, which is based on gross value and not net income to growers, was \$64,297,934. This includes \$11,583,044 for gross timber harvest.

Note: A copy of the report is available for review at the Clerk of the Board's Office.
