

MEMORANDUM

DEPARTMENT OF PUBLIC WORKS
County of Placer

TO: BOARD OF SUPERVISORS
DATE: May 8, 2007

FROM: ^{JLD} KEN GREHM / KEVIN ORDWAY

SUBJECT: UTILITY AGREEMENT WITH SAN JUAN WATER DISTRICT, BARTON ROAD
BRIDGE AT MINERS RAVINE

ACTION REQUESTED / RECOMMENDATION

Adopt a Resolution to authorize the Chairman of the Board to execute an agreement with San Juan Water District to replace their water line in conjunction with the Barton Road Bridge at Miners Ravine Replacement project.

BACKGROUND / SUMMARY

DPW is proposing to replace the existing bridge on Barton Road over Miners Ravine (see attached map). The project is being completed under the Federal Highway Bridge Rehabilitation and Replacement Program (HBRR). The project will replace the existing bridge, which is deteriorating and does not meet current design standards. The replacement bridge and improved approaches will bring this bridge into compliance with current structural, geometric, and hydraulic guidelines. Construction will be staged with one traffic lane open at a time. A temporary signal will provide traffic control through the project site. Construction is tentatively planned for the summer of 2007.

The San Juan Water District is in need of replacing their existing water main through the project area. As part of our project, San Juan Water District has requested that we replace and relocate their water line through the project and attach it to the new bridge. This will help the hydraulic capacity of the channel as the existing water pipeline is exposed in the stream channel and restricts the flow of water. San Juan Water District has taken the placement of the water line on the bridge to the Granite Bay MAC and received their approval for attaching the water line to the outside of the bridge. All costs associated with the replacement and relocation of the San Juan Water District water line will be reimbursed by San Juan Water District.

ENVIRONMENTAL

NEPA clearance was obtained with a Categorical Exclusion in July of 2006. CEQA is complete and a Mitigated Negative Declaration was approved by the Board on August 22, 2006. A Notice of Determination has been filed.

FISCAL IMPACT

All costs associated with the San Juan Water District water line replacement work will be reimbursed by San Juan Water District and is estimated to cost \$122,000.

A copy of the agreement is on file with
Clerk of the Board.
