**Subject:** [Fwd: Resignation from WAC MAC]

Hi Bruce,

It is with regret that I find myself in a position that I must resign from the WACMAC, but it turns out that my business obligations are in such a conflict with the MAC schedule that I do not believe it is fair to you, the community or the MAC to continue holding a seat that I cannot fill.

When I transitioned to an independent consultant on contract with Hewlett Packard, I accepted a set of responsibilities that includes attendance at IEEE 802.3 meetings. In the last year, the IEEE has shifted their meeting schedule such that I find myself in conflict with many, if not most, of the WAC MAC meetings.

I hope that my resignation does not cause too much short-term difficulty for the MAC, but I feel it is in the best long-term interest of the council that I make this decision.

Thank you for your support and for the appointment you made. It has been a great experience. I have met and come to know many people in the community that are not just members, but leaders and for this I am very grateful.

Best Regards,

Dan
