Subject: Employee Contract for Dr. Henrikson for Forensic Pathology

ACTION REQUESTED

Your Board's approval is requested to approve the contract employee agreement between the Sheriff-Coroner-Marshal and Dr. Donald Henrikson for forensic pathology services. The contract is for the period July 1, 2008 through June 30, 2009 in the total annual amount for salary, benefits, and reimbursements of \$261,046. Mandated payroll costs total \$52,057 for a total cost to the County of \$313,103.

BACKGROUND

Your Board approved the employee contract for Dr. Henrikson from September 15, 2002. The first amendment in October, 2003 updated the renewal options and clarified his benefits to be consistent with other County employees. Last year the terms were updated to be consistent and commensurate with other County physicians and employees. It was recommended that this contract be renewed on an annual basis so terms can be evaluated and updated as part of this annual process. This contract is being presented to your Board for review and approval.

This employee contract has been beneficial to the Coroner operations and the County. Without this agreement in place, the cost of these services would be much higher. We also receive the added benefit of having Dr. Henrikson on staff as needed with greater coordination and control over this critical function rather than be subject to an outside vendor. For example, FMG, our backfill forensic pathology service provider, charges \$950 for an external autopsy and \$1,700 for an internal autopsy. Based on the number of autopsies projected under this contract last year, 430, the costs could range from \$400,000 to \$700,000 in a worst case scenario. Sacramento County charges the higher flat rate for all autopsies regardless of case type.

Additionally, Placer County has collaborated for years with Nevada County and Sierra County to provide forensic pathology services to them. Nevada County averages about 10 per month while Sierra County averages 5 per year. This provides quality services at a reasonable rate to the smaller jurisdictions that cannot afford an on-site forensic pathologist. This also provides revenue to Placer County to offset the overall contract costs for Dr. Henrikson. The annual revenue is approximately \$80,000 plus the actual rate per autopsy for Sierra County. This covers the cost of services provided to these agencies.

FISCAL IMPACT

This position is approved and allocated. The cost for the employee contract is currently included in the proposed budget submitted to your Board in the amount of \$312,516 which is about \$500 lower than the actual contract amount. The revenues from Nevada County are included in the budget in the amount of \$80,000. The net cost of the contract to the County including salary, benefits, reimbursements and mandated payroll costs is about \$233,103.
