

**MEMORANDUM
PLACER COUNTY HEALTH AND HUMAN SERVICES
Community Health, Clinics, and Animal Services**

TO: Honorable Board of Supervisors

FROM: Richard J. Burton, M.D., M.P.H.
Placer County Health Officer and Director of Health & Human Services
Mark Starr, D.V.M., M.P.V.M., Director of Community Health, Clinics, and Animal Services

DATE: June 7, 2011

SUBJECT: Umbrella Contract for Emergency Veterinary Services

ACTION REQUESTED:

Approve a maximum payment authorization ("umbrella contract") with various providers for emergency veterinary services for FY 2011-12 in an amount not to exceed \$50,000 and authorize the Director of Health and Human Services to amend the list of providers as necessary.

BACKGROUND:

Emergency veterinary services are necessary when Animal Control Officers pick up injured animals in the community. The animal is taken to the nearest veterinarian who is willing to perform services for the County. These services are performed at the usual and customary fees for each veterinary practice. As these services may be provided by any willing veterinary office, the providers may include any Placer County veterinarian. Cities which contract with the County for animal care services reimburse the County for emergency care provided to animals from their jurisdictions. In addition, in situations where the emergency services arise from abuse, the abuser is held responsible for all treatment costs. Annually, an estimated 350 injured and homeless animals require treatment. The current list of 17 providers is shown in Attachment A.

The veterinarians willing to perform these services for the County change as the veterinarians change within the community. In order to maximize the number of facilities providing services to these animals, an umbrella contract is again being recommended. The umbrella contract allows multiple providers to be tied to one aggregate total contract amount controlled through the Performance Accounting System. This offers the County the flexibility to use the most appropriate provider available at the time that services are needed, within the funding limits authorized by the Board.

It is also requested that Health and Human Services be authorized to update the provider list throughout the year as additional providers are identified. Animal Services has worked closely with the veterinary community over the past two years to increase the number of emergency services providers.

FISCAL IMPACT:

Funding for these services is included in the FY 2011-12 Proposed Budget. The requested maximum amount of \$50,000 is unchanged from FY 2010-11. These mandated services are funded with County General Funds (75 percent) and reimbursements from cities and individuals (25 percent).

Attachment A – Emergency Veterinary Providers

Attachment A

Board of Supervisors Agenda Item
Animal Services Division
June 7, 2011

Veterinarians Providing Emergency Services Effective July 1, 2011:

Agate Bay Animal Hospital, Kings Beach
