

MEMORANDUM
DEPARTMENT OF PUBLIC WORKS
County of Placer

TO: BOARD OF SUPERVISORS DATE: March 10, 2015
FROM: KEN GREHM /  PETER KRAATZ
SUBJECT: COON CLEAN WATER PIPE - PHASE 1, CONTRACT NO. 000918

ACTION REQUESTED / RECOMMENDATION

1. Approve the project plans and specifications for use in bidding and construction of the Coon Clean Water Pipe - Phase 1. There is no net County cost.
2. Authorize the Chair of the Board of Supervisors to sign the title sheet of the plans.
3. Authorize the Department to advertise for bids.

BACKGROUND / SUMMARY

The Coon Clean Water Pipe - Phase 1 project is located in the unincorporated community of Kings Beach along the north shore of Lake Tahoe.

The proposed Coon Clean Water Pipe project is a crucial next-phase component of Placer County's overall watershed drainage improvement master plan for the Kings Beach area. Project improvements will provide separation of clean stormwater and urban stormwater thereby increasing the efficiency and effectiveness of treating the urban stormwater. The pipe infrastructure will follow a route via rights-of-ways and easements to Lake Tahoe protecting the clean stormwater from pollutants within the Kings Beach commercial area such as sediment, road sand, and nutrients.

The project is identified in the Tahoe Regional Planning Agency's Environmental Improvement Program (EIP) as Project EIP No. 10600.

ENVIRONMENTAL

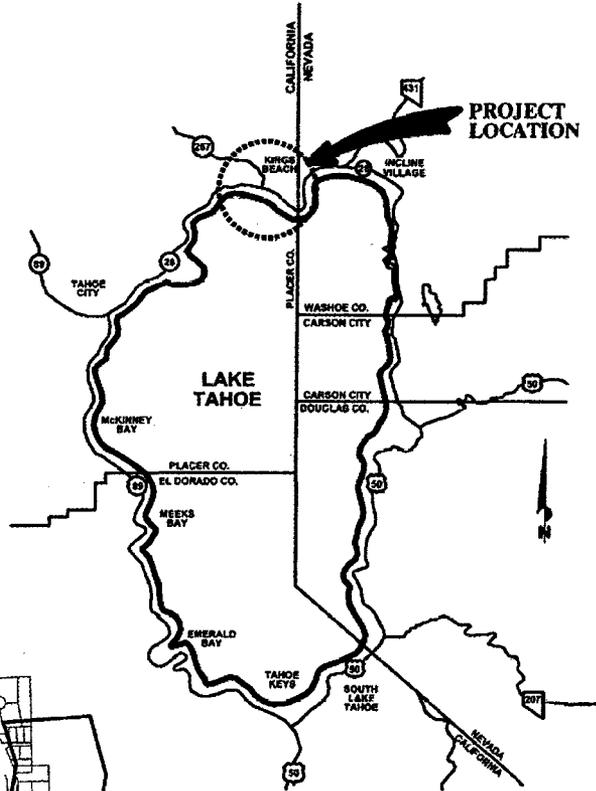

The County prepared a Mitigated Negative Declaration (MND) pursuant to the requirements of the California Environmental Quality Act (CEQA) and the Placer County Environmental Review Ordinance. The MND (EIAQ - 3350) was approved by the Board of Supervisors on December 9, 2008.

FISCAL IMPACT

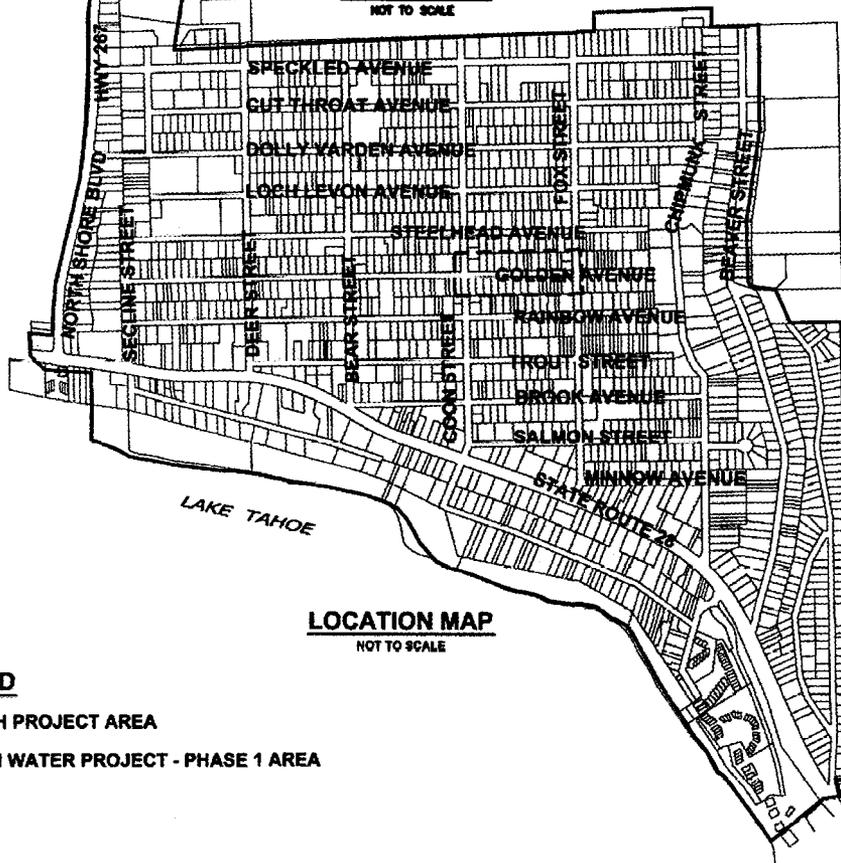

The Kings Beach Water Quality Improvement Project (WQIP) is estimated to cost over \$20,000,000 and be designed and constructed over the next ten years as funding is secured. The WQIP will be constructed in several phases, and the Coon Clean Water Pipe represents one phase of the WQIP and is estimated to cost \$457,500 to construct. The County applied and received construction dollars from the United States Forest Service to fully fund construction of this project phase. This funding is available in the FY 2014-15 Budget. Additional grant funding for future phases of the WIP will continue to be pursued.
