SUBJECT: Proclamations Honoring Sutter Hospitals

---

**ACTION REQUESTED**

1. Approve a Proclamation honoring Sutter Auburn Faith Hospital for their selection as a Truven "Top 15 Health System" Award recipient.
2. Approve a Proclamation honoring Sutter Roseville Medical Center for their selection as a Truven "Top 15 Health System" Award recipient.

**BACKGROUND**

Sutter Auburn Faith Hospital is a 72-bed acute care hospital that is an integral part of the Auburn community. Sutter Auburn Faith Hospital provides health care, using the latest technologies, while maintaining the small-town friendliness and charm. Founded in 1966 by a group of caring physicians, the hospital affiliated with Sutter Health in 1989, becoming part of Northern California's most comprehensive health care system. Sutter Auburn Faith Hospital is now the hub of a network of Sutter Health services in Auburn and surrounding foothill communities. The hospital's services and relationship with the not-for-profit Sutter Health system bring a wealth of resources and advanced technologies that ensure quality patient care. Today the hospital continues to focus on the needs of the people it serves, advancing with the times and growing with the community.

Sutter Roseville Medical Center is an acute care medical facility and is a level II American College of Surgeons verified Trauma Center serving a seven-county region that includes Placer, Yolo, Nevada, Sutter and Yuba counties, and portions of Sacramento and El Dorado counties. It offers a unique blend of sophisticated medical care, tranquil surroundings, and a heritage of community service that spans five decades. Serving the communities of South Placer, North Sacramento and beyond, the modern 791,000-square-foot campus offers acute care for all ages in a healing environment enhanced by a 57-acre, oak-studded landscape. Sutter Roseville Medical Center has 328 licensed beds and a full array of services and programs designed to serve the growing community. Opened in 1997, Sutter Roseville Medical Center was carefully designed to continue evolving as technology advances and is fully accredited by the Joint Commission on Accreditation of Healthcare Organizations. The vision for the original Roseville Community Hospital came from a handful of citizens striving for a better quality of life for their communities. Today, Sutter Roseville Medical Center continues to make that dream a reality for this rapidly growing area.

Truven Health Analytics gathered data from 338 health systems and nearly 3,000 hospitals, singling out 15 large, medium and small health systems that achieved superior performance based on a combined score of five measures of care quality, patient satisfaction, cost per

episode of illness and operational efficiency. Truven named Sutter Health and Sutter's Valley Area among the top-performing health systems in the country in its 15 Top Health Systems study, Truven recognized Sutter Health and its Valley Area as two of the nation's top five performers among large health care systems.

**FISCAL IMPACT**

There is no fiscal impact as a result of this action.
