

**MEMORANDUM  
COUNTY EXECUTIVE OFFICE  
ADMINISTRATION  
County of Placer**

TO: Honorable Board of Supervisors  
FROM: David Boesch, County Executive Officer  
By: James Importante, Senior Management Analyst  
DATE: July 12, 2016  
SUBJECT: Price Index Adjusted Agricultural Commissioner / Sealer of Weights and Measures, Community Development Resources Agency, Health and Human Services, and Treasurer-Tax Collector Fees

---

**ACTION REQUESTED**

Adopt a Resolution ratifying the current fee schedules and sliding fee scales for services provided by various divisions and programs of the Agricultural Commissioner / Sealer of Weights and Measures, Community Development Resources Agency, Health and Human Services Department, and Treasurer-Tax Collector by 1.1% to 2.7% for Consumer Price Index adjusted fees and 2.2% to 3.1% for Construction Cost Index (CCI) fees.

**BACKGROUND**

**Fee Ordinance and Annual Adjustments**

Fees have been established for various services according to the Placer County Code (PCC). PCC authorizes such fees to be adjusted annually based on actual costs or on a specified Consumer Price Index (CPI) or Construction Cost Index (CCI) formula. There are no changes to the CPI calculation and is consistent with prior years.

**Health and Human Services Fees**

In some instances, Federal and State programs require that fee schedules and sliding fee scales be established for use by ineligible individuals as a condition of claiming Federal and State funds for services provided to eligible individuals.

Public Health and Medical Clinics – Fees are charged for various services including primary medical care and public health laboratory testing services. PCC requires fees be subject to an annual adjustment at the same rate as the U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index (CPI) – for All Urban Consumers, Western Region, for Medical Care. Based on this methodology, there will be an increase in fees of 1.1 percent. For medical clinic services, a sliding fee scale has been established to be applied to these charges based on the patient's ability to pay.

Adult and Children's Systems of Care – Fees may be charged for mental health services and substance use disorder assessment and treatment services. PCC requires fees be subject to an annual adjustment at the same rate as the California Department of Industrial Relations, CPI

California – for All Urban Consumers. Based on this methodology, there will be an increase in fees of 2.2 percent. For substance use disorder treatment services, a sliding fee scale has been established to be applied to these charges based on the client's ability to pay.

Targeted Case Management – Fees for Targeted Case Management (TCM) encounter services are charged to clients who are not eligible for Medi-Cal based on a sliding fee scale, as required by the California Department of Health Care Services. The encounter cost is calculated annually based on the prior fiscal year's actual cost, established by the annual TCM cost report, and the current federal poverty guidelines are used to determine charges using the sliding fee scale.

Animal Services – Fees are charged for various services including adoptions, impounds, quarantines, licenses, permits, penalties, and field services. PCC requires fees be subject to an annual adjustment at the same rate as the California Department of Industrial Relations, CPI California – for All Urban Consumers. Based on this methodology, there will be an increase in fees of 2.2 percent.

Environmental Health – A resolution to adopt the Environmental Health Fee Schedule was approved by the Board of Supervisors on February 9, 2016, which included a CPI increase of 1.5 percent. Environmental Health Fees are adjusted annually at the same rate as the California Department of Industrial Relations, CPI California – for all Urban Consumers. Based on this methodology, an increase in fees of 2.2 percent is requested for approval with an effective date of July 1, 2017 for fees during the period of FY2017-18. Annual health permit fees are generally billed three months in advance of the upcoming billing period, so approval of the CPI increase with an effective date of July 1, 2017 will allow for billings to be distributed in a timely manner during FY2016-17.

### **Community Development Resources Agency Fees**

CDRA Administration and Planning – Fees are charged for various "at-cost" and fixed fee services including environmental questionnaires, conditional use permits, minor use permits, design review, administrative approval, administrative review, rezoning and sign permits. PCC requires fixed fees be subject to an annual adjustment each July according to the State of California Department of Industrial Relations "Consumer Price Index – California for All Urban Consumers" for the most recently available twelve month reporting period. Based on this methodology, there will be an increase in fees of 2.2 percent.

Building Services – Fees are charged for various services including plan check, inspection, and penalties. Certain fees are derived from established project valuations. Both fees and valuations are subject to annual adjustment per Placer County Code. Valuation data shall be adjusted by the Chief Building Official according to the State of California Department of General Services California Construction Cost Index (CCCI). Fees based on hourly rates shall be adjusted by the Chief Building Official according to the State of California Department of Industrial Relations "Consumer Price Index – California for All Urban Consumers" for the most recently available twelve month reporting period. Historically, Building Services fees were

updated each February. Fees will be updated in July to coincide with the fiscal year. The CCCI increase for this year is 3.1 percent.

Engineering and Surveying – Fees are charged for various engineering and surveying services including grading permits, map reviews, records of surveys, plan check, construction inspection, road naming, and surface mining operations. PCC requires fees be subject to an annual adjustment at the same rate as the California Department of Industrial Relations, CPI California – for All Urban Consumers. Based on this methodology, there will be an increase in fees of 2.2 percent. In addition, PCC requires the Unit Cost Spreadsheet be adjusted annually based on the Construction Cost Index (CCI) as posted in the Engineering News Record. The CCI increase for this year is 2.2 percent.

#### **Treasurer Tax-Collector Fees**

The Treasurer-Tax Collector's Office charges fees for certain specialized services provided to members of the public that do not provide a general benefit, but are of unique value to certain individuals and businesses. Chapter 2, Article 2.116.090 of the PCC states the Treasurer-Tax Collector fees shall be adjusted annually on the first day of July at the same rate as the state of California Department of Industrial Relations Consumer Price Index – California, for urban wages earners and clerical workers, rounded to the nearest dollar. When the current CPI factor of 1.936% is applied based on this methodology, there are sixteen fees that will be increased.

#### **Agricultural Commissioner / Sealer of Weights and Measures Fees**

The County Agricultural Commissioner / Sealer of Weights and Measures is responsible for testing all commercial weighing and measuring devices and performing a variety of agricultural inspections including quarantine and plant shipment inspections. Chapter 2, Article 2.116.167 of the PCC states the Agricultural Commissioner / Sealer fees shall be adjusted annually at the same rate as the state of California Department of Industrial Relations Consumer Price Index – California, San Francisco-Oakland-San Jose for urban consumers, rounded to the nearest dollar. Based on this methodology, there will be an increase in fees of 2.7 percent.

#### **FISCAL IMPACT**

Adjustments to fees based on an appropriate cost index helps to maintain current levels of service respective to labor and material cost increases over time. All fees are included in the departments' FY 2016-17 Proposed Budget.

The revised FY 2016-17 Fee Schedules are attached as Exhibits A through G to the accompanying Resolution.

## **BUILDING DEPARTMENT FEE SCHEDULE**

**VALUATION.** The determination of value or valuation under any provision of the Placer County Code shall be made by the Chief Building Official. The total valuation to be used within Fee Table 3-A shall be determined by using the ICBO Building Standards Valuation Data dated April 2002, as adopted by the Board of Supervisors and as adjusted by the Chief Building Official each January 31<sup>st</sup> according to the State of California Department of General Services California Construction Cost Index (CCCI) or as authorized by applicable laws. Valuation not listed in the Building Valuation Data shall be valued per the Building Valuation Data Supplemental below. The Building Valuation Data Supplemental may be expanded administratively by the Chief Building Official in order to clarify or cover additional types of work and situations.

Fees based on hourly rates shall be adjusted by the Chief Building Official each January 31<sup>st</sup> according to the State of California Department of Industrial Relations "Consumer Price Index – California for All Urban Consumers" for the most recently available twelve (12) month reporting period. Any fees may be modified from time to time by resolution of the Board of Supervisors. The Chief Building Official shall maintain the current fee schedule; the Chief Building Official shall make the current fee schedule available for public review upon request.

The valuation to be used in computing the building permit fee shall be the total valuation of all construction work for which the permit is issued, as well as all roofing, mechanical, electrical, plumbing heating, air conditioning, elevators, fire extinguishing systems, racking systems, and any other permanently installed equipment affixed to the building or structure.

The valuation of grading, retaining walls, paving and other site work, and any demolition work, shall be included unless such work was included in other permits issued by the Building Services Division or other County departments.

The valuation data is used and intended to establish consistent criteria for calculating permit fees, and the calculated total valuation does not necessarily reflect actual costs. The County Assessor does not rely on this cost, but performs independent assessments of permitted work.

Where multiple valuation rates are given, the higher value shall apply for all occupancies larger than three thousand (3000) square feet (includes both finished and unfinished areas) and all buildings located above five thousand (5000) feet elevation regardless of square footage. Shell buildings and unfinished rooms/spaces shall be valued no less than eighty (80) percent of the above valuation. Each subsequent tenant improvement (TI) and/or permits to finish an area will be charged an amount based on the **valuation listed in the most current Building Valuation Data Supplemental**

Where the value of the proposed work is not listed in the ICBO publication **or the Building Valuation Data Supplemental** the valuation will be based upon the equivalent contract amount.

\$ 600,001—700,000	\$565 + (.0006 x valuation exceeding \$600,001)
\$ 700,001—800,000	\$625 + (.00055 x valuation exceeding \$700,001)
\$ 800,001—900,000	\$680 + (.0005 x valuation exceeding \$800,001)
\$ 900,001—1,000,000	\$730 + (.00045 x valuation exceeding \$900,001)
\$ 1,000,001—AND GREATER	\$775 + (.0004 x valuation EXCEEDING \$ 1,000,000)

(1) Projects \$5,000,000 and greater pay a permit fee of 1% (.01) x valuation in addition to the plumbing, electrical, and mechanical inspection fees in Table 3-B. The amount in excess of the basic fee computed by Table 3-A and Table 3-B is subject to cost accounting on an hourly basis and refunds made available for any funds not used between the basic fee and the 1% permit fee.

For example, a \$5,000,000 project would pay a 1% permit fee of \$50,000. Tables 3-A and 3-B calculates a basic fee of \$23,750 [(5,425 + .0028 x 4,000,000) + (775 + .0004 x 4,000,000) x 3 (P,E,M)]. Department time on the project would be cost accounted. The amount between the 1% deposit and the basic fee (\$50,000 minus \$23,750) would fund department costs above the basic fee. Any unused portion above the basic fee would be returned at the final of the project.

(2) Any project receiving a higher than normal level of service, such as extended hours to accommodate an expedited schedule, or continuous inspection, must pay the associated costs.
