Before the Board of Supervisors County of Placer, State of California

In the matter of: A RESOLUTION APPROVING
THE WATER SUPPLY ASSESSMENT FOR THE
VILLAGE AT SQUAW VALLEY SPECIFIC PLAN

Resolution No. 2016-_____

The following Resolution was duly passed by the Board of Supervisors of the County of Placer at a regular meeting held _____, by the following vote on roll call:

Ayes:

Noes:

Absent:

Signed and approved by me after its passage.

Chair, Board of Supervisors

Attest:

Clerk of said Board

WHEREAS, a Water Supply Assessment was prepared for the Village at Squaw Valley Specific Plan pursuant to CEQA Guidelines Section 15155 and Government Code Section 66473.7, which requires preparation of a Water Supply Assessment for a project that has a water demand equivalent to 500 or more dwelling units or would increase the number of public water system service connections by 10 percent, whichever is less, and whereas State Water Code Sections 10910(b), 10912(b) and 10912(c) identified Placer County as the public water system for the purposes of preparing the Water Supply Assessment for this project, and

WHEREAS, on August 11, 2016, the Placer County Planning Commission ("Planning Commission") held a public hearing pursuant to Section 17.58.200(E)(1) of the Placer County Code to consider the Village at Squaw Valley Specific Plan ("Specific Plan"), and other land use approvals related to the Specific Plan, including but not limited to approval of the Water Supply Assessment, and the Planning Commission has made written recommendations to the Board of Supervisors ("Board") related thereto, and

WHEREAS, on _____, 2016, the Board held a public hearing pursuant to Section 17.58.200(E)(2) of the Placer County Code to consider the recommendations of the Planning Commission and to receive public input regarding the Specific Plan, the Water Supply Assessment and the related entitlements, and

WHEREAS, on _____, 2016, the Board closed the public hearing, adopted a motion to approve the Water Supply Assessment prepared for the Specific Plan, and

WHEREAS, having considered the recommendations of the Planning Commission, having reviewed the Water Supply Assessment prepared for the Specific Plan, having received and considered the written and oral comments submitted by the public thereon, and having adopted Resolution No. 2016-____ certifying the Final Environmental Impact Report and Errata for the Village at Squaw Valley Specific Plan, the Board finds:

- a. The Water Supply Assessment was prepared in accordance with CEQA Guidelines Section 15155, State Water Code Sections 10910(b), 10912(b) and 10912(c) and Government Code Section 66473.7, which require analysis of a 20-year supply of water.
- b. The Water Supply Assessment determined that a sufficient supply of water would be available to serve the project during normal, single-dry and multiple-dry years over the projected 25-year project implementation period, which is more conservative than the 20-year analysis required by Government Code Section 66473.7. The Water Supply Assessment further determined that a sufficient supply of water would be available during normal, single-dry and multiple-dry years to serve non-project development over the same 25-year period and the conclusions are supported by substantial evidence.

WHEREAS, notice of all hearings required by Section 17.58.200 of the Placer County Code have been given and all hearings have been held as required by statute and ordinance.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER:

The Village at Squaw Valley Specific Plan Water Supply Assessment, a true and correct copy of which is attached hereto as Exhibit A and incorporated herein by reference, is hereby approved in accordance with Government Code Section 66473.7.

Exhibit A:
