NOTICE OF AVAILABILITY OF A DRAFT EIR FOR PUBLIC REVIEW

Placer County has released a Draft Environmental Impact Report (EIR) for the project listed below:

PROPOSED PROJECT: Applegate Regional Sewer Pipeline Project

(PEIR 20100368 /State Clearinghouse #2008082116)

REVIEW PERIOD: June 17, 2011 - August 1, 2011

PROJECT DESCRIPTION: The Proposed Project would decommission the treatment ponds at the Applegate Wastewater Treatment Plant (WWTP) and install pump stations and a force main to convey Applegate's wastewater to the existing sewer collection system that flows to the SMD 1 WWTP. If determined necessary, a portion of the existing SMD 1 collection system in the Winchester subdivision would also be upgraded to accommodate the additional flows from Applegate. The wastewater would be treated at the SMD 1 WWTP and discharged to Rock Creek.

PROJECT LOCATION: The project area includes the Applegate WWTP (approximately 8 miles northeast of Auburn) and site of the proposed 4-mile pipeline, from the Applegate WWTP to the existing pipeline system at Winchester Club Drive west of Sugar Pine Road, in Placer County, California.

SIGNIFICANT ENVIRONMENTAL EFFECTS ANTICIPATED: The Draft EIR determined that all impacts could be reduced to less-than-significant levels with mitigation.
