Table 1-1. PCCP Analysis Zones

Analysis Zone	Area (acres)	Description
West Valley	74,900	Unincorporated Placer County. The Sacramento Valley plain, typically below 200-feet elevation. This area includes nearly all of the western Placer agricultural land, annual grassland-vernal pool grassland complex ecosystem.
Lincoln Planning Area	28,095	The City of Lincoln, the current Lincoln Sphere of Influence, and some surrounding unincorporated Placer County that the City of Lincoln wishes to consider in conservation planning. Nearly all of the area is in the plain of the Sacramento Valley.
All Valley portion of PCCP	102,995	
North Foothills	67,896	Unincorporated Placer County. Where the Sacramento Valley grades into the Sierra Foothills, agriculture becomes rangeland with small orchards and woodland, particularly blue oak woodland. Includes some rural residential use.
Interstate 80 Corridor	41,198	Unincorporated Placer County. Largely already built- up as low density and rural residential use.
All Foothills portion of PCCP	109,094	
All PCCP Plan area	212,089	
Non-participating Cities	48,555	The incorporated cities of Roseville, Rocklin, Loomis, and Auburn are not participants in the PCCP.
Total	260,644	Western Placer Area

b On Aug 6, 2009, The California Fish and Game Commission voted to remove the American peregrine falcon from California's endangered species list. The Commission's decision must be reviewed by the Office of Administrative Law before the species can be officially removed from the Endangered Species list. The American peregrine falcon is currently designated as a Fully Protected Species under the Fish and Game Code; that will not change as a result of the delisting.
