

COUNTY OF PLACER
Community Development Resource Agency

Michael J. Johnson, AICP
Agency Director

Planning Services Division

E.J. Ivaldi, Deputy Director

HEARING DATE: September 17, 2015

TIME: 9:00 A.M.

DATE: September 10, 2015

TO: Zoning Administrator

FROM: Planning Services Division

SUBJECT: PLN15-00260 Irimescu

APPLICANT: Tiger Edwards

STAFF PLANNER: Roy Schaefer, Associate Planner

ZONING: RS-AG-B-20 (Residential Single Family, combining Agriculture, combining a Building Site minimum of 20,000 square foot)

LOCATION: 6785 Miners Ravine Road, Granite Bay

APN: 048-122-042-000

PROPOSAL:

The applicant is requesting a Variance to the 15-foot side setback requirement to allow for a new carport to be constructed with a 6-foot side setback from the south property line.

CEQA COMPLIANCE:

The project is categorically exempt from environmental review pursuant to provisions of Section 15305 of the California Environmental Quality Act Guidelines and Section 18.36.070 of the Placer County Environmental Review Ordinance (Class 5(A) (1), Minor Alterations in Land Use Limitations).

BACKGROUND/ANALYSIS:

This Variance request was continued from the August 20, 2015 Zoning Administrator hearing. The neighbor to the south testified against the project and the Zoning Administrator continued this request to

the September 17, 2015 hearing in order to allow the applicant time to revise the Variance request for the proposed new carport.

The applicant (Tiger Edwards) was contacted on Monday, August 3, 2015 and he informed the Planning Services Division that the property owner was getting a survey done for his property and he thinks the results will show that the neighbor's fence to the south was encroaching by 4 feet on the Irimescu property. As of this date, no survey documentation has been submitted to the County and there are no proposed revisions to the Variance request for the new carport to be constructed with a 6-foot side setback from the south property line.

Staff conducted a field review of the project site on August 10, 2015. This 31,020 square foot (110 ft. by 282 ft.) parcel is located at 6785 Miners Ravine Road in Granite Bay. The subject property is zoned RS-AG-B-20 (Residential Single Family, combining Agriculture, combining a Building Site minimum of 20,000 square foot) and is designated Low-Density Residential (0.4-0.9 acre min.) in the Granite Bay Community Plan.

The parcel is currently developed with a 3,685 square foot single-family residence with a circular driveway, and a swimming pool behind the residence. There are several large trees in the front yard and fenced areas with sheds in the rear yard area. The surrounding parcels all developed with single family residences and residential accessory structures.

Staff supports this Variance request to allow a new carport to be constructed with a 6-foot side setback from the south property line, where typically a 15-foot setback is required. Special circumstances applicable to the subject property include the fact that the existing location of the single-family residence dictates where the new carport would be attached to the structure. In addition, the proposed new carport would have a low visibility because the maximum height for the carport would be approximately 12-foot.

The Engineering and Surveying Division and Environmental Health Services support the recommendation of approval for this Variance request, and their memos are attached to this staff report.

RECOMMENDATION:

Staff recommends **approval** of this Variance request to allow a new carport to be constructed with a 6-foot side setback from the south property line, based on the following findings and recommended conditions of approval.

FINDINGS:

CEQA FINDINGS

1. The project is categorically exempt from environmental review pursuant to provisions of Section 15305 of the California Environmental Quality Act Guidelines and Section 18.36.070 of the Placer County Environmental Review Ordinance (Class 5(A) (1), Minor Alterations in Land Use Limitations).

VARIANCE FINDINGS

1. Special circumstances applicable to the subject property include the fact that the existing location of the single-family residence dictates where the new carport would be attached to the structure, and due to such circumstances the strict application of the Zoning Ordinance has been found to deprive the subject property of privileges enjoyed by other properties in the vicinity and under identical zone classifications.
2. The granting of this Variance will not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and in the same zone district.
3. The Variance does not authorize a use that is not otherwise allowed in the Residential Single-Family Zone District.
4. The granting of this Variance does not, under the circumstances and conditions applied in this particular case, adversely affect public health or safety, is not materially detrimental to the public welfare, nor injurious to nearby property or improvements.
5. The Variance is consistent with the *Granite Bay Community Plan and Placer County General Plan*.

CONDITIONS OF APPROVAL:

1. Approval of this Variance allows a new carport to be constructed with a 6-foot side setback from the south property line, where typically 15-foot is required.
2. The applicant shall satisfy any conditions set forth by the South Placer Fire Protection District.
3. The applicant shall obtain a Building Permit for the carport from the Placer County Building Department.
4. The applicant shall, upon written request of the County, defend, indemnify, and hold harmless the County of Placer, the County Board of Supervisors, and its officers, agents, and employees, from any and all actions, lawsuits, claims, damages, or costs, including attorney's fees awarded by a certain development project known as PLN15-00260, Irimescu Variance for a new carport. The applicant shall, upon written request of the County, pay or, at the County's option, reimburse the County for all costs for preparation of an administrative record required for any such action, including the costs of transcription, County staff time, and duplication. The County shall retain the right to elect to appear in and defend any such action on its own behalf regardless of any tender under this provision. This indemnification obligation is intended to include, but not be limited to, actions brought by third parties to invalidate any determination made by the County under the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) for the Project or any decisions made by the County relating to the approval of the Project. Upon request of the County, the applicant shall execute an agreement in a form approved by County Counsel incorporating the provision of this condition.

5. This Variance (PLN15-00260) shall expire on September 28, 2017 unless previously exercised.
