RE: Camel's Hump caretakers Residence (SCH#2008012032)

The above project has been reviewed for compliance with the California Forest Practice Act and Rules. Pertinent requirements of the rules are summarized in the bullets list below, with rule references and explanation provided here:

The project could involve the cutting or removal or both of timber or other solid wood forest products from timberlands for commercial purposes. Additionally, Public Resources Code 4527 defines commercial purposes, among other activities, as the cutting or removal of trees during the conversion of timberlands to land uses other than the growing of timber including residential or commercial development projects. Any such projects implemented under the revised plan are subject to the Forest Practice Act and Rules.

Recommendations for compliance with the Forest Practice Act and Rules are as follows:

- o Submittal of a Timber Harvest Plan (RM-63) or other harvesting document for timberland acreage included in the project.
- o Submittal of a timberland conversion permit or applicable timberland conversion exemption.
- o Incorporation of a California Licensed Timber Operator for conduct of timber operations.

The Forest Practice Rules and harvesting forms are available online at:

http://www.fire.ca.gov/php/rsrc-mgt_forestpractice.php

Sincerely,

Matthew Reischman

Subject: Camel hill

Julie,
Please add:

All roads shall be constructed to provide a minimum of two ten (10) foot traffic lanes, not including shoulder and striping. These traffic lanes shall provide for two-way traffic flow to support emergency vehicle and civilian egress, unless other standards are provided in this article, or additional requirements are mandated by local jurisdictions or local subdivision requirements.
Please remove the second sentence in the paragraph labeled (E)
