School Year 2014-2015

Dear Parents,

Your child entering Kindergarten is an exciting time! Placer County Public Health wants to remind you of the immunization requirements for entry into Kindergarten. Whenever children are brought into group settings, there is a potential for the spread of infectious diseases. To prevent some of the most serious infections, the California School Immunization Law requires that children receive a series of immunizations before school entry and for the schools to maintain immunization records of all children enrolled in school.

Your child must have all his/her immunizations up to date at the time of school entry. Please plan ahead and check with your medical provider to ensure that your child's immunizations are up to date before school starts. To schedule an appointment for immunizations, please call your child's healthcare provider or see the schedule on the reverse side for the Placer County drop in immunization clinics.

Thank you for your continued efforts to keep the children of our community safe and healthy!

For more information on the above, call:

Candy Jensen, Immunization Coordinator (530) 889-7147

Sincerely,
