Supervisor Holmes said he has read the press, received letters, attended some of the meetings on the Bohemia Project and is fully aware of the process and concerns.

They will hold public hearings at the end of this month or the early part of May. The State Water Quality Control Board does not have a concept or proposal but a concept proposal that includes three tiers: Tier 1-No additional regulation from the State Water Quality Control Board or the Regional Water Quality Control Board; Tier 2-Higher category, subject to local regulation; and Tier 3-Any waterways that might be impacted by septic system that is leaking would be regulated by local jurisdiction.
