

MEMORANDUM
PLACER COUNTY HEALTH AND HUMAN SERVICES
Adult System of Care and Medical Clinics

TO: Honorable Board of Supervisors

FROM: Jeffrey S. Brown, M.P.H., M.S.W., Director of Health and Human Services
Maureen F. Bauman, L.C.S.W., M.P.A., Director of Adult System of Care and Medical Clinics

DATE: November 3, 2015

SUBJECT: Second Contract Amendment for Nancy M. Callahan, dba I.D.E.A. Consulting

ACTION REQUESTED:

1. Approve the second amendment to contract CN005690 with Nancy M. Callahan, dba I.D.E.A. Consulting to increase funds by \$80,000 for a total contract amount of \$542,000 to implement the Substance Abuse and Mental Health Services Administration (SAMHSA) grant, and authorize the Director of Health and Human Services to sign the amendment and subsequent amendments not to exceed 10 percent of the total contract amount consistent with the subject matter and scope of work.

BACKGROUND:

Placer County has been awarded a Substance Abuse and Mental Health Services Administration (SAMHSA) grant to improve the health outcomes of persons with severe mental illness receiving on-going mental health services. This program will build and support a health integration team so the persons with serious mental illness receive coordinated and integrated primary care services at the county behavioral health setting to improve chronic health conditions. This program will develop an integrated treatment team comprised of a Contracted Coordinator with medical expertise, Peer Advocates and a Substance Use Counselor to screen, assess and support individuals to develop a person-centered health home. The Provider staff will work on sight with the ASOC Mental Health Team to implement this program.

Nancy M. Callahan dba I.D.E.A. Consulting currently contracts with Health and Human Services to assist with the evaluation of the Mental Health Services Act Programs. Her contract will be expanded to include the evaluation of this SAMHSA grant award. The grant requires a strong evaluation of this program and the contract amount is included in the grant award.

The program strategy to improve health outcomes is to link clients to primary care and by year 2 have a health care partner develop the capacity to deliver primary care services at the Adult System of Care behavioral health clinic in Roseville. This will assist clients to become connected early on to primary care services and to better understand the value of these services. In addition, the staff will be trained to engage, motivate, support, and teach clients wellness goals that can be permanently integrated into their everyday lives and help support positive health outcomes. Evidenced based programs will address understanding health, how to develop health goals, how to manage chronic health conditions, and reduce or eliminate tobacco use. This program is expected to positively impact the health of persons with serious mental illness who are served in the Adult System of Care. This is also expected to result in improved mental health. This target population dies 20 years earlier than the average person. This grant strives to impact that statistic and help to increase the lifespan of persons served with improved health.

FISCAL IMPACT:

This program is funded 100% with federal funds. There is no impact to the County General Fund.

A copy of the contract amendment is on file with the Clerk of the Board.
