

# MEMORANDUM

DEPARTMENT OF PUBLIC WORKS  
County of Placer

TO: BOARD OF SUPERVISORS

DATE: April 18, 2006

FROM: KEN GREHM/ KEVIN TABER

SUBJECT: **SLURRY SEAL OF EXISTING ROADS – SUMMER 2006,  
CONTRACT NO. 73239**

---

## ACTION REQUESTED / RECOMMENDATION

Approve the list of proposed roads and project specifications and authorize the Department of Public Works to advertise for bids.

## BACKGROUND / SUMMARY

The Department of Public Works performs various surface treatments on maintained public roadways to protect, preserve, and extend their useful lives. A slurry seal is a road resurfacing process that provides a new wearing surface, some crack filling, pavement rejuvenation, and sealing. The construction requires special equipment, which mixes an asphalt emulsion with coarse sand and spreads the resulting slurry over the surface of the road. Slurry seals are applied on selected maintained public roadways each year. Your Board approved \$500,000 for Slurry Treatment the 05/06 Fiscal year. In addition to these funds, we will utilize approximately \$350,000 in County Service Area (CSA) Funds for a project total of approximately \$850,000.

A list of this year's roads is attached for your approval. The current project includes approximately 40 miles of roads at various locations throughout Placer County.

## ENVIRONMENTAL

This project is Categorically Exempt from the provisions of CEQA as a Class I exemption, Section 15301 (c) "Maintenance of Existing Facilities". A Notice of Exemption was filed on March 29, 2006.

## FISCAL IMPACT

There will be sufficient funds available to fund this project. The proposed project of approximately \$850,000 is financed partially with current year appropriations of \$500,000 in the 05/06 Road Construction Budget for Project No. 2866 "Slurry Seal FY 05/06". Additional County Service Area funds, to be appropriated in the 06/07 FY budget, will be required to fund the entire project.
