

“Mental Health...is not a destination but a process. It's about how you drive, not where you are going.”
Noam Shpancer

Placer County utilizes a client centered, strength based, and recovery focused treatment approach. Treatment, while different for everyone, focuses on these four major areas of recovery:

Health

Make informed, healthy choices that support physical and emotional well-being.

Home

Have a stable and safe place to live.

Purpose

Engage in meaningful daily activities, such as a job or school, volunteering, caring for your family, or being creative. Work for independence, income, and resources to enjoy life.

Community

Build relationships and social networks that provide support.

To access specialty mental health services please call Placer County Intake to request a screening appointment or attend one of our outpatient screening clinics.

Screening clinics

Who should come to a screening clinic?

Anyone in need of specialty mental health treatment is welcome to attend. Please call in advance if cultural or linguistic accommodations are being requested.

How much does an assessment cost?

A mental health screening will be provided to you at no out of pocket cost*

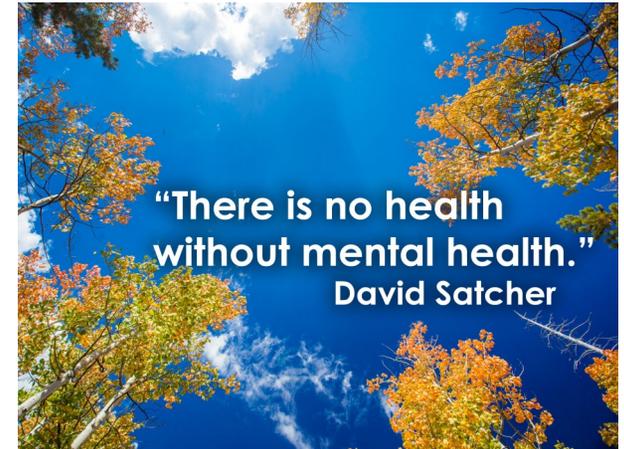

Upon completion of the screening you may be offered a full assessment for ongoing services or be provided linkage and care coordination services within the community.

For ongoing ASOC services, several payment options are available. Payment options include: Medi-Cal insurance (share of costs may apply) and sliding scale payment.

What should I bring to the screening clinic?

Bring a copy of your insurance card, proof of residency, and proof of income if uninsured.

** your insurance may be billed for screening*

Outpatient Services

Placer County provides outpatient mental health services to county Medi-Cal beneficiaries and county residents with no insurance (other insurance situations may be considered on a case by case basis). To be eligible for services you must have a qualifying mental health diagnosis that is significantly impairing your functioning in at least one of the following life domains:

- Education
- Employment
- Housing
- Social Support
- Finances
- Access to Health Care
