

Placer County Franchised Haulers

Tahoe Truckee Sierra Disposal

(blue area on map)

530.583.7800

Recology Auburn Placer

(green area on map)

530.885.3735

NOTE

If collection of mixed C&D is the chosen method of disposal, additional methods of diversion or reduced disposal may need to be identified (i.e. separating on site and self-hauling to a waste collection facility or renting a debris box), as Placer County's C&D Materials Recovery Facilities cannot guarantee a minimum of 65% diversion.

Waste Drop-Off Facilities

1. Eastern Regional
Materials Recovery Facility
900 Cabin Creek Road | Truckee, CA

CALGreen 2016

CONSTRUCTION & DEMOLITION DIVERSION REQUIREMENTS

Tips for Compliance

CALGreen 65% C&D Diversion Breakdown

If a project fits either of the descriptions below, a Construction Waste Management Plan is required to be filed with the Placer County Building Services Division prior to Building Permit issuance.

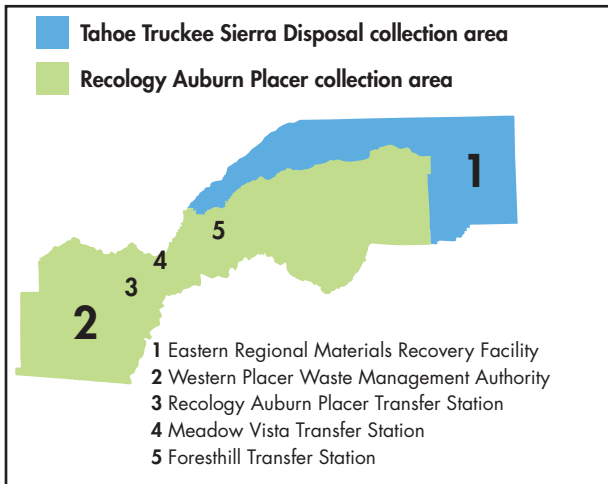

Forms available at the Community Development Resources Center public counter or at:

www.placer.ca.gov/2146/Building-Applications-Forms

CALGreen C&D Diversion Requirements

CALGreen requires builders/owners to divert 65% of the waste from covered projects. This brochure defines covered projects and provides tips on how to comply with the State's requirements for diverting Construction & Demolition (C&D) waste.

Waste Collection Areas & Drop-Off Facilities

Placer County has five disposal facilities that will accept mixed C&D and separated waste. Waste collected by a franchised hauler is taken to a Materials Recovery Facility.

Tips for Complying with Requirements

Separating construction waste materials by type on the job site is the best way to comply with CALGreen C&D diversion requirements.

Debris Boxes | Subscribe for this service with the franchised hauler for your project area.

Self Haul | Separate materials on the job site and haul them to the nearest MRF or other drop-off facility.

Call Placer County recycling staff at 530.886.4984 or email recycle@placer.ca.gov for more information.

Residential Compliance

(CALGreen 4.408)

Diversion of 65% of construction waste

OR

Disposal of 3.4 lbs/ft² or less
(3 stories or fewer)

OR

Disposal of 2 lbs/ft² or less
(4 stories or more)

Non-Residential Compliance

(commercial/industrial/public)

(CALGreen 5.408)

Diversion of 65% of construction waste

OR

Disposal of 2 lbs/ft² or less

AND

100% of trees, stumps, rocks & soil
from land clearing

Covered Projects

- New construction and demolition permits (including demo-only permits).
- Additions and alterations to existing residential buildings where the net conditioned area, volume or size is increased.
- Multi-family dwellings with five or more units.

Covered Projects

- New construction and demolition permits (including demo-only permits).
- Additions 1,000 ft² or greater
- Alterations with a permit valuation of \$200,000 or above

NOTE

Covered projects are required to verify that Universal Waste (photovoltaic modules, batteries, electronic waste, fluorescent lamps, mercury-containing wastes, etc.) is managed correctly. Information on materials accepted and disposal options can be found at the following websites:

- Tahoe.OneBigBin.com/tahoe-waste-services/hhw-disposal-options
- OneBigBin.com/hhw-disposal-options
