Ms. Shirlee Herrington  
Environmental Coordinator

Dear Ms. Herrington,

We are addressing our concerns to you on this proposed development which will have destructive impact on our immediate community in Lincoln.

The Draft EIR for this plan reveals significant impacts to the environment that cannot be mitigated.

Because of the destructive environmental impacts for our community, the Board of Supervisors should terminate the proposal by approving the "No Project" alternative.

If the Board determines to pursue the project, the Draft EIR must be recirculated because it fails to adequately analyze environmental impacts and is incomplete.

We appreciate this opportunity to provide comments on the DEIR. We look forward to a spirited discussion and careful reconsideration of the impacts on this precious parcel representative of Placer County.

Respectfully,

Lynne Snyder
