**To:** AEL-Leslie Warren  
**Subject:** FW: Government shutdown and SAP/PRSP Comments,

Good Afternoon Ms. Warren,

Thank you for your interest in the subject project and for taking the time to provide comments. This is to confirm that your comments have been received. The CEQA Guidelines identify a public review period of 45 days, which was met and exceeded by the referenced project's review period of 67 days. There is no basis under CEQA to extend that timeframe due to a federal government shutdown, and most all of the information needed to evaluate the project is available on-line or through State agencies. That being said, staff will take into account the federal government shutdown for any comments received by federal agencies after the comment period. Lastly, you are on our master email and/or USPS distribution list for the subject project and, as such, you will receive updates and notifications of future opportunities to for public participation and input.

Thanks.

Subject: Government shutdown and SAP/PRSP Comments,

Dear Ladies and Gentlemen,

We are concerned that Federal agencies that would ordinarily prepare comments on the subject DEIR are unable to do so, due to the Federal government shutdown. As the DEIR has identified significant impacts to Federally listed species and to jurisdictional waters of the United States, among other issues, we feel that it is imperative that Federal agencies participate in the environmental review process.

Will you please advise us about how the shutdown is affecting all the Federal agencies from whom comments would, under normal circumstances, be expected?

Many thanks for your reply.

Sincerely,

Leslie Warren, Chair  
Alliance for Environmental Leadership
