NEW SINGLE-FAMILY DWELLING PROJECT
INFORMATION PACKET AND CHECKLIST

All applications are subject to an Information Technologies (IT) surcharge

How To Apply for a Tahoe Regional Planning Agency Permit

This packet explains the Tahoe Regional Planning Agency (TRPA) permit process for new residential structures. The TRPA uses the best available science and planning practices to review each project individually so that Lake Tahoe can continue to be an Outstanding National Resource Water for this and future generations. TRPA’s thorough project review standards are designed to balance the impacts of the built environment with the protection of Lake Tahoe’s fragile, natural environment. The Agency values every project applicant and works hard to serve the public promptly and fairly. Please read this packet thoroughly. We hope it answers most of your application questions. If not, please call TRPA at (775) 588-4547. Planners are available to assist you by phone Monday through Friday, 9:00 a.m. to 5:00 p.m. Front counter hours are Monday, Wednesday, Thursday, Friday 9:00 a.m. to 12:00 p.m. and 1:00 p.m. to 4:00 p.m. Closed Tuesdays. Applications are accepted until 3:00 p.m.

Please be aware that we may require information beyond that presented in this packet. Once your application is submitted, TRPA will contact you if additional information is required to adequately review your project.

Where to Submit Your Application

To streamline review of residential projects, TRPA entered into agreements or Memoranda of Understanding (MOU) with the City of South Lake Tahoe, El Dorado County, Placer County, and Washoe County. Douglas County does not participate in the MOU program. Under an MOU, El Dorado County, City of South Lake Tahoe, Washoe County and Placer County will review of most residential projects which require a TRPA permit. TRPA still reviews residential projects in Douglas County and on most parcels visible from TRPA-designated scenic areas.

If you have questions regarding your proposed project and your project is eligible to be reviewed by a local jurisdiction, please call your local building department:

- City of South Lake Tahoe Building Department (530) 542-6010
- El Dorado County Building Department (530) 573-3330
- Placer County Building Department (530) 581-6200
- Washoe County Building Department (775) 832-4140

Getting Started

Included in this packet is a residential application checklist and list of findings to be made as applicable to your project. All the items on the checklist must be addressed in your project submittal. You should refer to the TRPA Master Checklist/Design Guidelines and Criteria document for the corresponding numbered checklist item for further explanation. Project applications without all the items on the checklist will not be accepted for review by TRPA. In addition to the TRPA requirements, the project application should also include any local jurisdiction standards. Incorporating the local jurisdiction standards into your plans will avoid costly plan revisions at a later date.

New Single Family Residential Projects require a buildable Individual Parcel Evaluation System (IPES) score and receipt of an allocation for construction of a new single family residence. Buildable scores vary depending on which local jurisdiction you are in.

- Douglas County 1 or above
- El Dorado County 1 or above
- Placer County 726 or above
- Washoe County 1 or above

You may purchase IPES points if you are within 90% of your eligible score. Contact TRPA or your local jurisdiction for information on purchasing IPES points. Your IPES score will also indicate the percentage of allowable coverage for your site. In some cases you may be able to purchase additional coverage. Review TRPA Code of Ordinances Chapter 53 for additional information.
It is the responsibility of the applicant or applicant’s agent to explain how TRPA may make the required findings as shown on the findings table. The Findings Table lists all possible findings to be made by TRPA to approve a project for various situations. It is possible that you will only need TRPA to make some of the findings on the Table and not all of them. The TRPA Code of Ordinances Subsection for the specific finding can be found in the TRPA Master Findings Document. Review this document for all of the findings listed in the Findings Table and attach a written explanation of why each applicable finding can be made by TRPA. This information is required by TRPA at the time of submittal of the application.

Prior to Application Submittal

Prior to submitting your project application, the following items should be completed:

- **Review the TRPA development standards.** If you have questions regarding land coverage, height, excavation, or other TRPA standards, some basic information is in the Master Checklist/Design Criteria and Guidelines document. Contact TRPA or your local building department for additional information.

- **Prepare a Site Plan with Topographic Survey.** If you plan to submit a project application, you must have a Topographic Survey prepared including all of the existing site information listed on the enclosed checklist. This survey will be required when applying for a site assessment or land capability verification. It will also be required for your project application.

- **Research your IPES score.** Most single family residential parcels have been assigned an Individual Evaluation Parcel System (IPES) score by TRPA. This score may be found on the TRPA website, TRPA office or local jurisdiction office. You must have a buildable IPES score in order to build. Your IPES score will also indicate the percentage of allowable coverage for your site up to 1/3 of an acre. If your parcel is greater than 1/3 of an acre you may request review of the portion of the site greater than 1/3 of an acre to potentially increase your allowable coverage. Contact TRPA for additional information. In some cases you may be able to purchase additional coverage. Review TRPA Code of Ordinances Chapter 53 for additional information.

- **Lakefront parcels require a Backshore Boundary Verification.** If your parcel is a lakefront, you must have your backshore boundary verified. You must have a completed verification prior to submitting your plans. You may apply for this verification through TRPA.

- **Complete a Scenic Impact Assessment Form.** The scenic impact assessment process will help to determine the level of scenic analysis your project may require. The form is included in this packet. If your parcel is visible from a TRPA designated scenic corridor or resource, additional items may be required to be submitted with your application. Projects located in the shoreland will require assessment of the Scenic Quality Baseline Conditions prior to review of the project. This assessment requires submittal of a separate application prior to the project application. A related scenic assessment for the proposed conditions will be required to be submitted concurrent with the proposed project application.

- **Review the Appropriate Plan Area Statement or Community Plan.** Each property is located within a specific Plan Area or Community Plan Area. Additionally, your project may be affected by a Redevelopment, Master, or other Specific Plan. You can find the Plan Area your project is located in by contacting either the local jurisdiction or TRPA. These planning documents indicate the permissible uses and certain design criteria that should be referenced while planning your project.

- **Obtain an Allocation for New Single Family Residence.** If you have a buildable Individual Parcel Evaluation (IPES) score for your parcel you must secure a Building Allocation from the local building department. In order to receive an allocation you must submit project plans to the local Building Department. Contact your local Building Department for additional information. You must submit your allocation with your project plans if TRPA is conducting the review.

- **Complete the appropriate forms.** The Project Review application form must be completed, and all checklist items provided. For additional information about checklist items, refer to the TRPA Application Checklist Reference. Note that checklist item numbers are sequential but may not be all inclusive; not all checklist items found in the TRPA Application Checklist Reference apply to all projects. In addition to the Project Review application form and checklist, a Scenic Impact Assessment form must be submitted with each application. Please be advised that a soils/hydrologic report will also be required for your project if the proposed excavation exceeds 5 feet in depth.
✔ Obtain the required signatures. The **property owner** must sign the application and, if applicable, complete and sign the Authorization for Representation. Forms without an **original signature** from the property owner will not be accepted. **Faxed signatures and xerox copies will not be accepted.**

✔ Complete Applicable Findings. TRPA staff must be able to make findings related to your project in order to recommend approval. Contained within this packet is a table of findings that may be applicable to your project. Applicants are required to review the applicable findings and provide a detailed rationale as to how your project complies with these findings. We recommend that you review the applicable findings prior to designing your project. This will allow for adjustments to the project design, if necessary, in order to meet the required findings. This procedure is explained in more detail within this packet.

### Required Findings

**Purpose:** The Tahoe Regional Planning Compact requires TRPA to make findings before taking certain actions. In addition, the Regional Plan package, including the Code of Ordinances and Plan Area Statements, sets forth other findings which must be made. TRPA Code of Ordinances Chapter 4 sets forth procedures describing how TRPA shall make the findings required. Applicable findings and their associate Regional Plan document location are shown in the Findings Table in this information packet. You only need to provide an explanation as to why the finding can be made for particular findings applicable to your project.

**Applicability:** Prior to approving any project or taking any other action specified herein, TRPA shall make the findings required by the provisions of the Regional Plan package, including the Goals and Policies, the Code, and any other requirement of law. All such findings shall be made in accordance with Chapter 4 of the TRPA Code of Ordinances.

**Procedure For Findings:** Findings shall be made as follows:

**Written Findings:** All required findings shall be in writing and shall be supported by substantial evidence in the record of review. The findings required shall be submitted with the application. TRPA must concur with the findings prior to the approval of the proposed matter.

**Statement:** Required findings shall be accompanied by a brief statement of the facts and rationales upon which they are based.

**Example Finding:**

Below is one of the findings necessary for additional height for a building set forth in Table A of the TRPA Height Ordinance.

37.7 **List Of Findings:** The **findings** required in this chapter are as follows:

1. When viewed from major arterials, scenic turnouts, public recreation areas or the waters of Lake Tahoe, from a distance of 300 feet, the additional height will not cause a building to extend above the forest canopy, when present, or a ridgeline. For height greater than that set forth in Table A for a 5:12 pitch, the additional height shall not increase the visual magnitude beyond that permitted for structures in the shoreland as set forth in Subparagraph 36.2, Additional Visual Magnitude, or Appendix F, Visual Assessment Tool, of the Design Review Guidelines.

**Finding Rationale**

This property is visible from a distance of 300 feet from the High Water mark of Lake Tahoe. The additional height will not cause any part of the building to extend above the forest canopy or any ridgeline as shown in the attached photo. The photo is marked with the proposed height of the addition and clearly shows the forest canopy to be higher than the proposed building addition. The property is not located on a ridgeline.

This project proposes additional height for a 5:12 pitch greater than that specified in Table 37.4.1-1. A visual magnitude analysis was completed for this project and is not increased beyond that permitted for structures in the shoreland as set forth in Subparagraph 36.2. See attached visual magnitude analysis.
PERMIT PROCESS

Complete Application
If your project application addresses all items on the checklist, your application will be accepted by TRPA. Within 30 days of submittal, TRPA staff will review an application for completeness. If additional items are needed, a notice will be sent to you and/or your representative indicating what additional information is needed to provide a complete application. If the application is determined to be complete, a notice will be sent to you or your representative. Once complete, your application is now ready to be reviewed by TRPA staff for conformance with TRPA rules and regulations. A complete application notice is NOT a conceptual approval of your application, nor is it a determination that the information submitted for review is accurate or approvable.

Request for Additional Information
Once review has begun on your project, additional information may still be required. TRPA staff attempt to identify all information needed to review a project at the “complete application” stage, however, some items can not be identified until the review of the project has commenced. If additional information is required, you and your representative will be notified.

Project Review
The amount of time to process an individual application depends on the complexity of the project and the number of applications submitted to TRPA or the local jurisdiction for review. Submitting a clear complete and accurate application with explanation of the applicable findings to be made can speed the processing time through TRPA or the local building department. The time of year you submit your application can also influence the processing time. Submittal of project applications usually peak during the summer building season. This tends to lengthen the processing time for an individual application. During winter, the presence of snow on the ground may limit TRPA’s ability to evaluate the site if necessary. You are strongly encouraged to submit your application(s) well in advance of the building season. Ideally, submit your application the summer prior to the year in which you plan to build.

Local Jurisdiction Review: If your permit is reviewed for TRPA standards by a local jurisdiction (e.g., the City of South Lake Tahoe, El Dorado County, Placer County, or Washoe County), please contact the appropriate building department for their permit process. Typically, local jurisdictions do not issue conditional permits. Instead, they issue a correction notice outlining the required changes to your plans, if any. A permit is issued once plans received by the local building department meet all applicable TRPA standards. In many cases, the local jurisdiction may be able to review your plans concurrently for local requirements.

TRPA Review: TRPA has three review levels for projects; staff level, Hearings Officer and Governing Board. The large majority of residential projects can be reviewed at staff level. The TRPA Hearings Officer or Governing Board typically only review residential projects identified as a “Special Use” in the applicable Plan Area Statement. The Governing Board meets once a month and projects are scheduled for the next available Governing Board hearing once the review of the project has been completed. Hearings Officer meets twice per month as needed.

Conditional Permit
Once review of your project is complete, TRPA staff will issue a conditional permit. A conditional permit is an approval of your project subject to specific conditions. The conditional permit is based on the application and plans you submitted to TRPA for review.

Final Permit Acknowledgement
Once all the conditions of the permit have been met, TRPA will provide the final acknowledgment of the permit and stamp the submitted plans. You must schedule an appointment with the TRPA planner who issued the permit to acknowledge your permit and stamp your plans. Your permit will not be acknowledged unless you have met all of the special conditions outlined on your conditional permit.

The conditional permit is valid for three years. Within the three year time period, you must demonstrate that all the conditions of approval have been met, pay any required mitigation fees, provide a project security to TRPA, acknowledge the permit, schedule and complete a TRPA pregrading (pre-construction) inspection and begin construction. Your project must be completed within two years from the date of the TRPA pregrading inspection.
Once you have received your acknowledged TRPA permit and stamped plans, review by your local jurisdiction will still be required for structural standards and other local requirements. Please check with your local building and planning departments for their processing requirements.

Timeline for Appeals
If an applicant wishes to appeal a final decision by TRPA, pursuant to Rule 11.2 of the TRPA Rules of Procedure, a Notice of Appeal form and filing fee must be submitted within twenty-one (21) days from the date TRPA issues its final decision (date on correspondence). After 21 days, no appeals can be made and the Agency’s decision is final.

Mitigation Fees
Required mitigation fees, if any, will be collected by the reviewing jurisdiction. Please refer to the TRPA Filing Fee Schedule for current mitigation fees.

- **Water quality:** Water quality mitigation fees are based on the amount of new land coverage being created by your project. These fees are non-refundable. Water quality mitigation fees are held in a fund for use by local jurisdictions for major erosion control and water quality improvement projects. See TRPA Fee Schedule.

- **Off-site land coverage:** Off-site coverage mitigation fees are based on the amount of land coverage created in the public right-of-way as a result of your project. This fee is calculated by the appraised cost of land in each hydrologic area of the Tahoe Basin. As with the water quality fees, this money is held in a fund for use by local jurisdictions for erosion control and water quality improvement projects.

- **Excess land coverage:** Excess land coverage is the amount of legally created land coverage existing within your project area that exceeds the base allowable land coverage. Not all parcels will have excess land coverage. Excess land coverage can be mitigated several ways: through a mitigation fee, by reducing land coverage on or off site, or by expanding the project area. The mitigation fee is based on the amount of excess land coverage on your parcel and the estimated construction cost of your project. The minimum excess land coverage mitigation fee is $200 per project. See TRPA Code of Ordinances Section 30.6.

For information on specific projects funded by mitigation fees, please request a TRPA Annual Report.

Project Security
A project security will be collected by the reviewing jurisdiction. In most cases, the project security will be based on 110% of the cost of all required Best Management Practices (BMPs). Securities may also be required to insure compliance with specific conditions of project approval. A security can be posted in several ways: a certificate of deposit, a hold on a personal savings account, a letter of credit, an assignment of personal savings account, a bond (only if security is estimated over $10,000), or cash. A non-refundable security administrative fee is required for all securities. Contact the jurisdiction that issued your permit to schedule a final inspection. Review Attachment J in the Master Checklist/Design Guidelines document for additional information.

Plan Revisions
You may revise your original approval by requesting a plan revision. An approved plan revision, however, will be tied to the original permit expiration date and the conditions of the original approval. A minor plan revision generally involves small changes that do not include modifications to land coverage or the exterior dimensions of a structures. A major plan revision generally includes changes to land coverage or height calculations. Check the TRPA fee schedule for the appropriate fee amount.

Pregrading (Pre-construction) Inspection
Before you begin construction of your project, you must arrange a pre-grading inspection. If a local jurisdiction completed your TRPA review, contact the appropriate local building department to arrange an inspection. If TRPA issued your permit, contact the TRPA Environmental Compliance Division. In some cases, the pre-grading inspection may be done via telephone. Prior to scheduling your inspection, you must have obtained all necessary TRPA and local approvals. All temporary Best Management Practices (BMPs) must be installed prior to Pregrading Inspection.
NEW SINGLE FAMILY DWELLING REQUIRED FINDINGS TABLE

Include an attached Written Statement and rationale for making each finding applicable to the project proposal. Refer to the TRPA Master Findings Document available at our offices or online at www.trpa.org. Click on “Permits & Documents” and look for the Master Findings Document under “Other Documents.” Refer to the Master Findings Document to complete this portion of the application.

I have reviewed the TRPA Scenic Corridors, Recreation Areas and Bikeways (listed on the following page) and have determined that the above referenced parcel(s) is (check one):

[ ] not visible.
[ ] visible from __________________________

If visible, provide the following Scenic Resource Inventory Information:
Refer to the Scenic Resources Inventory available at TRPA offices, or online at www.trpa.org. Information and maps for these items are available on the Scenic Resources page of the TRPA website and at the TRPA main office. List all unit numbers the parcel(s) is located in. Then list any scenic points from which the parcel(s) can be seen.

Roadway Unit No. ____________________ Status: □ Attainment □ Non-attainment

Roadway Scenic Resource Point No. ______

Shoreline Unit No. ____________________ Status: □ Attainment □ Non-attainment

Shoreline Scenic Resource No. __________

Is this a Shorezone Project? □ Yes □ No

Shoreline Character Type __________________

Current and/or Prior Shorezone Project(s) on site? □ Yes □ No TRPA File # ____________

If yes, and scenic mitigation measures were required, please clearly identify location(s) of any approved mitigation measures on lakefront façade/landscape elevation drawings.

If property boundaries are not clearly defined, all property corners must be located and staked before the site visit. Use one inch by two inch boards about 3 feet long, driven solidly into the ground at the property corners. In cases where there is heavy brush or tree cover, surveyors tape (brightly colored plastic ribbon) shall be tied to the stakes. The address must be posted on the property.

Print Name: ____________________________ Date: __________________

Signature of Property Owner or Authorized Agent: ____________________________

TRPA STAFF WILL DETERMINE IF ADDITIONAL SCENIC ANALYSIS IS NEEDED BASED ON REVIEW OF THE FOLLOWING CHECKLIST ITEMS AND STAFF FIELD VISITS TO THE SITE.

(continued on next page)
If either the parcel or proposed project is visible from a scenic corridor, recreation area or bikeway, the following information must be submitted to TRPA along with the project application. Refer to the TRPA Master Checklist for an explanation of each item. Following this checklist closely can avoid costly delays in reviewing your project.

____ 1. Photographs from scenic corridor, recreation area or bikeway location to project area, clearly showing all existing development within the project area.

____ 2. Color and material samples for proposed structures. Samples can be no larger than 8.5” x 11”. Photographs of sample colors will not be accepted. However, to assist TRPA in the review of your project, you may also submit close-up photographs of outer walls with the applicable color sample from a Munsell® Color Chart held against the wall. A chart of TRPA-approved Munsell® colors is available at TRPA offices.

____ 3. Preliminary landscape plan (can be included on the submitted site plan).

____ 4. Dimensions of structure(s). Scale drawings showing the exact dimensions of all walls, roofs and structural façades visible from scenic areas or points.

____ 5. Written discussion of proposed scenic mitigation measures.

____ 6. For Shoreland and Shorezone Projects, TRPA-verified contrast rating score resulting from the Baseline Scenic Assessment. See Baseline Scenic Assessment Application for more information.

NEW SINGLE FAMILY DWELLING CHECKLIST

APPLICATIONS LACKING ANY OF THE FOLLOWING ITEMS WILL NOT BE ACCEPTED. TRPA OR YOUR LOCAL JURISDICTION MAY REQUIRE ADDITIONAL INFORMATION ABOVE AND BEYOND THE CHECKLIST ITEMS TO REVIEW THIS APPLICATION.

Each item and number corresponds to TRPA’s Master Checklist (784 k download) available at our offices or online. Refer to the Master Checklist for more information on any item.

PROJECT NAME: _____________________________________________________________

CURRENT ASSESSOR’S PARCEL NUMBER (APN): _____________________________________________________________

PREVIOUS ASSESSOR’S PARCEL NUMBER (APN): _____________________________________________________________

Applicant TRPA

1. Fire protection agency pre-approval. This requirement does not apply to some areas as indicated on the fire district maps available at TRPA offices and on www.trpa.org. Applicants must contact the reviewing fire agency for their individual requirements regarding plan submittal. Final plans (plans that have been reviewed and approved by TRPA or our partner agencies) are also subject to final approval from local fire protection district or department. Check with your local fire protection agency for their requirements.

2. Complete Application with original signed authorization and checklist.

3. Application Fee: Please refer to the TRPA Filing Fee Schedule available at TRPA offices or online. Use the schedule to make the calculations on the attached Filing Fee Worksheet and submit the complete fee with this application.

4. Proof of IPEs score and allowable coverage.

5. Completed TRPA Scenic Impact Assessment Form.

6. Site Plan: Minimum size 18” x 24” on blackline or blueline print paper showing the following:
   a. All property lines.
   b. Map scale and north arrow.
   c. Assessor’s Parcel Number (APN) and property address.
   d. Property owner(s) name(s).
   e. Parcel area in square feet.
   f. Temporary and permanent Best Management Practices (BMPs).
   g. Finish topographic contour lines at 2-foot intervals.
   h. Topographic contour lines at 2-foot intervals.
   i. Verified Backshore boundary (for lakefront parcels).
   j. High and low water lines (if applicable).
   k. Trees greater than 6” in diameter at breast height (dbh) and all rock outcroppings. Indicate trees to be removed.
l. Location and dimensions of proposed structures including overhang coverage reductions at 3:1.

m. Driveway and driveway slope.

n. Edge of pavement at street.

o. Location of all easements (if applicable). For easements involving land coverage (i.e., driveway or access easements), provide the earliest recorded grant deed describing the easement on the subject property.

p. Allowable land coverage. Attach TRPA Determination of Allowable Coverage if parcel is greater than 1/3 acre in size.

q. Proposed land coverage calculations by land capability district including a breakdown by type of coverage (i.e., buildings, decks, walks, etc.).

7. Preliminary Building Elevations showing:

a. Finish floor elevations with respect to contour elevations on the site plan. Proposed excavation depth (including excavation needed to construct foundation): ________ feet. (For excavations greater than 5 feet, a soils/hydrologic report is required.)

b. Elevation of the highest roof ridge and lowest elevation of foundation wall at natural grade.

c. Roof pitch of each roof plane. (If more than one roof pitch is proposed, provide a roof plan.)

d. Allowed and proposed height calculations.

e. Drawing scale and view aspect.

8. Preliminary Floor Plans showing:

a. Scaled dimensions.

b. TRPA-approved wood stove, fireplace, space, and water heaters

c. All exterior entrances and exits.

9. Grading Plan (proposed cut and fill).

10. For projects requiring Hearings Officer or Governing Board review:

a. A list of names, addresses, and Assessor's Parcel Numbers of property owners within 300 feet of project area, addressed envelopes to same (with no return addresses), and postage (stamped not metered).

b. 8-1/2" x 11" reductions of site plan, building elevations, and floor plans.

11. Applicable findings with written explanation.

13. Project Description.
Please calculate your filing fee in the worktable at the bottom of this page. Include full payment with your complete application.

Fees and multipliers for permit applications are re-evaluated on a regular basis to ensure TRPA’s review costs are recovered and that applicants are not unfairly charged. Please refer to the current TRPA Filing Fee Schedule (275 kb pdf) available at TRPA offices or online at www.trpa.org.

**Plan Revisions**

- **Minor**—A non-substantive change to a permitted project. A project that will not cause changes to any TRPA permit conditions, does not require new field review by TRPA staff, does not require a public hearing, and does not involve any modifications to building size, shape, land coverage, location, or scenic rating score.
  - Multiplier: 0.40

- **Major**—A substantial change that does not significantly exceed the original scope of the project. Revisions that significantly exceed the original scope of a project, or which require a public hearing, must be treated as new or modified projects, as the case may be.
  - Multiplier: 0.70

**Special Planning Areas**

For projects located in an adopted community plan area, or subject to an adopted redevelopment, specific, or master plan. A map of Community Plan Areas is available at our offices or online at www.trpa.org.

- Multiplier: 1.25

**Sample Calculation**

\[
\left( \$2,000.00 \times 1.4 \times 0.70 \times 1.25 \right) + \$400 + \$88 = \$2,938.00
\]

**Applicant Calculation**

Using the base fee from the TRPA Filing Fee Schedule (275 kb pdf) and the fee multiplier table above, calculate your filing fee total on the worktable below. You must fill all blanks with a number or N/A if the multiplier or surcharge does not apply to your application.

\[
\left( \text{Base Fee} \times \text{Level of Review Multiplier} \times \text{Plan Revisions Multiplier} \times \text{Special Planning Area Multiplier} \right) + \$ \text{Shoreland Scenic Review} + \$ \text{I.T. Surcharge} = \$ \text{Application Fee due on submittal}
\]
