Who We Are

Placer County Nutrition Action Partnership (CNAP) is a committee of individuals working together to create a healthy community in Placer County. CNAP members include representatives from USDA Food and Nutrition Service funded programs along with public, private, and non-profit organizations committed to improving the health of our community.

Mission

The Mission of Placer CNAP is to bring diverse organizations and individuals together to promote healthy and active lifestyles in places we live, learn, work, and play.

Key Activities

The CNAP group facilitates coordination and collaboration of community organizations within Placer County to promote consumption of healthy foods and an active lifestyle.

Placer CNAP Meetings

Join us for our next CNAP Meeting! Meetings are open to anyone committed to improving the health outcomes associated with nutrition and physical activity among priority populations in Placer County. CNAP meetings provide a time for organizations to share ideas, learn about partners efforts, and form new partnerships.
