On May 26, 2020, the Placer County Board of Supervisors approved an urgency ordinance (Ordinance No. 6020-B) to temporarily reduce regulations pertaining to implementation of outdoor dining areas located within unincorporated Placer County to assist with economic recovery from the COVID-19 crisis. The urgency ordinance was recently extended and will remain in effect through October 8, 2021 unless rescinded.

During the period of this urgency ordinance, established restaurants and mobile food vendors may be permitted to temporarily establish outdoor dining areas through approval of an Administrative Approval permit. For more information on how to establish an outdoor dining area, please visit the County's Retail Recovery website (<https://www.placer.ca.gov/6613/Retail-Recovery>) or call (530) 581-6200.

Please note: The Administrative Approval permit is separate from any permit review or inspections from the North Tahoe Fire Protection District or the Placer County Building Services Division for any temporary structures that require a permit as detailed on page 1 of this flyer. Both North Tahoe Fire and the Building Services Division are processing permits for these structures free of charge.
