18	2021-05-12 1:31:40	It is unique and not overcrowded such as Roseville and Rocklin. A little bit of country with some big city stores such as Target and Home Depot. Living in Auburn seems like a get-a-way compared to the bigger cities. Living on the Southside of Auburn is slightly less congested than the Northside of Auburn.	Our boundary is from Lincoln to Tahoe.	We should be kept together as one versus separating. If our community is separated it may lose its significance and uniqueness of feeling small.	95603	Yes	Yes	Yes
19	2021-05-12 3:23:07	Farming and ranching. Close neighbor ties. Lack of high speed Internet so pretty badly separated from the rest of the connected country.	I am in North Auburn in District 5, right on the border of D3 on Bell Rd. one mile past Joeger at 4525 Bell Rd.	Those of us in the "D5 Northwestern Slice" as we like to call it have suffered from Community Division since the last redistricting. Our Supervisors have resided a great distance from us, in the North Tahoe/Truckee area. We're a farming and ranching community. Tahoe is a vacation destination for the wealthy. Diametrically opposed geographies. Cindy Gustafson has done a good job since being appointed by the board following Montgomery's departure, but living so far away there's just no way to have a clear understanding of your distant constituents needs. We're again having to live with a massive homeless camp at the county buildings. We're disappointed that a huge influx of new out-of-county visitors (and homeless) will flock to the newly approved Hidden Falls entrance. We suffered for two years with the trap club sound wall. You must live here to understand, and our D5 supervisors do not. I feel we need to be placed into District 3 like the rest of our North Auburn neighbors.	95602	Yes	Yes	No

21	2021-05-15 15:41:21	My neighborhood is zoned ag/res 4.5 acre minimum. It has many non compliant parcels which are a legacy of a previous time when 1 acre minimums existed. We do not have a commercial hub but are 2.5 miles from Meadow Vista and are within 5 miles of North Auburn along hwy. 49 near both Dry Creek and 7 miles from hwy. 49 and Bell Road. We are 4.5 miles from the commercial hub at I-80 and Foresthill Rd. We are served by both the Placer Hills Fire District and Cal Fire and by PCWA.	We are part of Clipper Gap north of I-80 and are bounded by Christian Valley, Applegate, Meadow Vista, Bowman and North Auburn.	We have been a part of the 5th Supervisorial District for at least the last 40 years that I've been a resident. Because of the population distribution within the county we have always been included with the East Placer/Tahoe area.	95602	Yes	Yes	No

Served by several school districts.	I consider my immediate community as West Roseville (west of I80 and south of Hwy 65). Please do not separate the Sun City Del Webb communities in this area. The Dry Creek and Roseville city school districts both serve this area.	If the city of Roseville is split (due to population balancing), hopefully the split would be along the I80 corridor.	95747	Yes	Yes	Yes

28	2021-06-04 21:48:02	Historic neighborhoods need to be considered together to protect historical features and interests. Neighborhoods like Sierra Vista, Los Cerritos, Folsom Road, Roseville Heights and Cherry Glen need a unified voice to preserve our history and character, protect from demolition, development, road widening and infill inconsistent with the existing structures and land uses.	Roseville, containing the 5 mentioned neighborhoods as defined by RCONA, Roseville Coalition of Neighborhood Associations. 41	2021-07-13 20:58:33	I see the common links of my community to be based on a relatively similar age of neighborhoods, similar experience with the school system, local parks and recreation.	The City of Roseville has grown so much and I recognize that these maps will have 2-3 districts including Roseville. I would consider the boundaries of one similar community in the city to be East of all of the new development but west of Interstate 80.	While the entire City of Roseville would be considered my community, I specifically would consider the areas that feed into Roseville High School and Woodcreek High School to be similar. Growing up in Roseville in the 95678 area, I went to Vencil Brown Elementary, Cooley Middle School, and Roseville High School. I would consider the neighborhoods that went to those schools to have similar needs, which would be distinct from the needs of the new development in West Roseville or the needs of East Roseville.	95678	Yes	Yes	Yes

My community includes the westside of Roseville and all of Rocklin. These are places that I consider my community in Placer County. St. Matthew Lutheran Church (in unincorporated Placer County), Sutter Roseville Medical Center, CB Music Studios in Roseville, Oriental Market in Roseville, my doctor Dr. Abalos in Roseville (near the Nugget in Roseville), Sutter Roseville Pediatrics in Roseville, Lakeshore Learning Store in Roseville, Sierra College in Rocklin, Jing Jing Restaurant in Rocklin, and All of Rocklin.	1) Industrial Ave and Placer Corporate Dr. in unincorporated Placer County to 2) Pleasant Grove Blvd and Foothills Blvd in Roseville, 3) Foothill Blvd and Cirby Way, 4) East Roseville Parkway and Douglas Blvd, 5) Sierra College, 6) Whitney Oaks Golf Club, 7) Whitney High School, and back to number 1.	All of Rocklin should be kept together with neighboring parts of Roseville because it represents best represents the Asian community in Placer County. Currently Rocklin's representation is split between two districts, 2 and 3. Asians in Placer county have the highest vaccination rate in the county. We as a group are trying our best to mitigate the spread of COVID-19 and we are constantly surprise that the Board of Supervisors have no one that represents this view. We are business owners, doctors, dentists, engineers, teachers, cooks, maids, full-time parents, accountants, cosmologists, nurses, etc. We are doing the best on our own. However that means we look different by masking indoors or in crowds, running our businesses differently by having plastic over the front of doors as protective barriers, keeping a small of pod of friends, schooling virtually all year. It makes us and our children targets of racism, ignorant comments, and verbal abuse! Don't divide the Asian vote.	95677	Yes	Yes	Yes

63	2021-07-16 18:34:20	Bonds: Friendliness and civility. Community support for our schools, PSCO and the Fire Department. Concerns about home insurance. Concern for the homeless and the rising rents. Need: Streets (built 100 yrs ago out of concrete and rock) torn up and repaved. Relief on our sewer bill which is almost \$140/month (with scheduled increases) per household.	I live in the town of Colfax, 1 block from downtown. I use the provided water, sewer and garbage pick up. We do not have mail delivery. I believe City Hall has the boundaries of my area versus the surrounding Colfax areas which are in the hills and not on all of our utilities. Plus they do not typically hold to my personal political beliefs but I know there are many in town who do not as well, so I may just be the minority in this area. I believe in a democracy and will adhere to whatever the majority rules. If I can't, I realize I can move.	Many of the people outside town "proper" must provide their own roads and live off wells, so would not have the same interests as "in town" people when it comes to spending money on these items. They also receive mail delivery, which we do not. Otherwise, we basically use our town library, post office, stores and such in the same way. I think. I know there are some who want to stop change and discourage visitors but that's probably the case in every town.	95713	Yes	Yes	No

I see my community as North Lake Tahoe and Truckee.	I think the North Tahoe community gets overshadowed by the foothill communities. Lots of farming and lots of farm animals including horses, cattle, sheep, and goats. Many wineries.	North of SR193, west of incorporated Lincoln, east of Ophir	Many residents have lived most of their lives here or moved here for the rural life style. We feel threatened by the aggressive eastern moving incorporation of land by the City of Lincoln. The extra traffic has already channeled itself onto back roads of our community. This will inevitably lead to traffic congestion and risks to wildlife. The roads to Roseville, Loomis, and Auburn are not adequate to meet the needs of thousands of new residents on the border of our community. We are also concerned as a group about the residential and commercial development at Bickford Ranch which will add additional traffic congestion and delays in moving from our neighborhood to the outside world. Finally, the declaration of Hidden Falls and the traffic to it's 3 entrances has brought people from well outside our region to recreate in our back yard. 70	2021-07-17 17:05:52	There are experiences we all have in common that bond us as a community. We all contend with severe winter weather conditions when they occur however taxing they might be. We have a problem whereas there is a lack of available residential housing for local workers on the Northshore of Lake Tahoe due to the Vacation Rental by Owner or VRBO boom. That in turn increased our tourist numbers which increased our traffic and taxed our local infrastructure to meet the need for more trash dumpsters and trash pick up which increased our residential trash monthly bills. Tourist create more trash as well as an increase in residential traffic because more tourist are using residential streets as a way to avoid in town traffic. The absence of monitoring and policing VRBO activity has lead to more noise pollution and incognito VRBOs not registering or paying their share of the T.O.T. of which the greater Placer County benefits. People come to Placer County to come to North Lake Tahoe not Auburn.	Our community is located in North Lake Tahoe. Our affected boundaries are from Kings Beach to Tahoe City.	Our community should be kept together because we encounter the same challenges and deal with the same issues as those in our community. As a resident of Kings Beach for forty years and as a home owner, I believe we hold a rather unique position in Lake Tahoe. Having a beautiful State Beach located in Kings Beach brings with it a unique set of issues to deal with that we as community need to deal with together. Having Republican Congressman Tom McClintock not living in our district, the district he represents in Congress along with his refusal to hold a Town Hall meeting with us to hear our concerns, issues and vision for the future doesn't help matters. Congressman McClintock's desire to open more public lands to recreation while denying the effects of climate change and not addressing environmental and forest management issues may be Mr. McClintock's and the Republican method of governing, but it does not represent a large number of us who live on the Northshore of Lake Tahoe.	96143	Yes	Yes	No

86	2021-07-28 7:34:13	My parents, my mother's parents, and I all live in Rocklin, so I have familial bonds to my community. My church, my next-door neighbors, and my roommate also provide bonds of friendship in my community. Our community is partly defined by walking- people frequent the manmade trails that populate the area or make routes of our own. The three routes I use the most fit entirely within the area below. Beyond people, though, I also included commercial and industrial zones that I either commonly use or personally appreciate. Parallax is a brilliant robotics company, and I use both of the Dollar Stores enclosed in that region, often on a weekly basis but at least on a monthly basis.	I would like to note two different boundaries. The first (which is not drawn below due to it being the easier boundary) is bounded by Park Drive/Whitney Ranch Parkway and Stanford Ranch. This includes my three hiking trails, as well as my and my parents' houses. The second boundary (drawn below) also includes the area around East Joiner Parkway, namely the area where it meets Lincoln Blvd. I included the new construction alongside East Joiner Parkway and the grassy plains between East Joiner Parkway and the highway/the casino, since I connect those with my church.	Over the past year, I've made more trips to Loomis than to Roseville, and ten times as many trips to Lincoln than to Roseville. I don't go to Roseville unless I need to do so. I frequent both Dollar Trees in Rocklin and Lincoln, in case one has something the other lacks. I got both my parents' birthday gifts and my pool supplies from the Lowe's in Lincoln. My church stands alongside East Joiner Parkway, and my mother's friends in education will likely work at the newly-constructed John Adams Academy facility within that region. In my post-college life, I have more of a connection to Lincoln than to any other city on Earth save my hometown of Rocklin. More broadly, I tried to determine the boundaries which, if I was confined to those boundaries, would have the smallest impact on my weekly life. I frequent several hikes in this area, I shop almost exclusively in this area, and I would have plenty of entertainment as well.	95765	Yes	Yes	Yes

Some space between houses as the housing is over crowded in Roseville developments currently being built. Health and safety codes for livestock in suburban areas. (5-10 acres only) limitations on numbers of animals due to flies, larvae, and horse manure toxic waste. Some people do live in Auburn and commute to Tahoe for work as well. Only the young transients and employees working for the hospital system or government jobs are truly working in the community. Everyone else in Tahoe lately is from Big Tech money that bought up all the multi-million dollar houses in Tahoe and they do not contribute to society at all; further they do not rent rooms to locals and so housing availability has completely evaporated. The low income housing projects require annual income in excess of \$150,000 which is completely out of touch with wages and salary for the region.	I live 20 miles north of Reno and commute 75mi each way for work in Tahoe. I used to rent in Kings Beach CA for many years but AirBnB effect caused homeowners to kick out all the long term renters such as myself.	Tahoe is a completely different environment from where the majority of Placer county population resides. For example the Placer county engineers that stipulated permeable concrete be used for drainage in Tahoe do not know what they are doing, when that freezes it floods and creates hazardous road conditions; it would work and be cost-effective for warm weather Placer county areas West of Auburn. There are many examples where Tahoe is so radically different in needs from the rest of Placer county including the public transit system, roads and CalTrans services, law enforcement, and wildland fire fighting.	96143	Yes	Yes	Yes

137	2021-08-27 15:25:24	What does this question mean? What "bonds" your community? "Common links"? Define "community". What I think "bonds" the area I live is the lack of representation from the current District 5 supervisor.	I live in North Auburn, north of Dry Creek Road, on the East side of Hwy 49.	Any one with an Auburn mailing address should be in a district all together, not divided like it is currently. Those of us with an Auburn address but are in District 5 should be re-districted to District 3. We have absolutely no representation from our current supervisor as it appears her only interest is in the Tahoe area unless it's for a photo opportunity like the community meeting for the River Fire. I believe the rural areas of Auburn would be more fairly and appropriately represented in District 3. If that makes District 3 too large then I suggest changing the district line so Rocklin is in another district.	95602	Yes	Yes	No

160	2021-09-04 22:55:59	Many of the the common links in Rocklin are common links in other Placer County communities. Based on how we vote in Rocklin, I think it can be concluded that we value excellent schools, our public library, community wide landscaping and parks (\$10/yr special tax reupped every ten years with a 86% approval last time!), and a pragmatic, straightforward, can-do city council. As County Librarian (1992-2005), I had the privilege of getting to know all the communities in Placer County. I thought we were pretty lucky to have such a reasonable, educated population, and a sprinkling of interesting differences.	I live in Rocklin and consider it my community. However, because I worked with every community in the County (with the exception of Roseville and Lincoln because they had their own libraries), I have an affection for all the communities in Placer County. Also, because I lived in Auburn for many years, I still frequent many stores, restaurants, and services there, and care about the community's welfare.	I would use city lines, MAC lines, and other similar lines already in place as much as possible in redrawing the new districts. 189	2021-09-21 15:21:05	Lake Tahoe is the common bond in my community. The love for the outdoors, recreation, ski areas, are what bonds our community.	I would say that our Tahoe/Truckee boundary is Donner Summit and the El Dorado County line on the West Shore of Tahoe.	We should 100% be separate from Western Placer County, over Donner Summit. The communities could not be more different and they share almost nothing in common. Our supervisors seem to have little to zero care for our mountain town and our community needs, other than the income that we produce. That income should stay in our community, not travel West, to a community that shares nothing in common with us. It makes no sense for Lake Tahoe and parts of Truckee, to be part of Roseville, Auburn, etc... where it makes perfect sense for East of Donner Summit, to be separated from the rest of Placer County.	96143	Yes	Yes	Yes
190		Quality of life has always been the reason people choose to work and live in Auburn specifically, and Placer County as a whole. Exceptional schools, affordable housing, employment opportunities (here and down the hill), foothill-small town-rural lifestyle, outdoor recreation, and accessible health care are all "links" or "bonds" we can agree on. The challenge is that we do not always agree on how to build on or maintain those "bonds." Additionally, population growth and, therefore, the political power is increasingly centered in South Placer. This often makes the foothill and mountain communities, like the Greater Auburn area, feel like we are being disregarded in favor of our more urban neighbors -- as evidenced by the continual shift of county programs, courts, etc. to South Placer. The county is the major employer in our community so this is very concerning.	I live on the canyon rim in the Aeolia Heights neighborhood of Auburn. I'm currently in District 5.	Because of where the population centers in Placer Co. currently exist, there is a very real likelihood that we will end up with one supervisor representing all of the foothill and mountain communities and four supervisors representing South Placer. That is a huge concern. As such, I would like to see the current district 3 area either maintained or expanded into the Greater Auburn/foothill communities to ensure a more balanced representation on the board of supervisors to ensure and better reflect the diversity of Placer County.	95603	Yes	Yes	No

214				All I know is that it seems very irresponsible to ask the common everyday folks of Placer to draw sample districts on a freaking map. People will divide proportionality by geography. That's a given. The governance of this county is of and for THE PEOPLE. Please draw districts that do not allow an overrepresentation of power by those in extremely rural areas. 228		The people in Colfax are very supportive of one another and the businesses here however I believe the income is either very high or very low, so we have many who are struggling to stay afloat (elderly and veterans mostly) and who cannot afford to help support our businesses. Some could use some outside support since the community members cannot do it all (caregiving and such). Meals on Wheels has been very helpful there. The SVCC (our community center) is a great hub of our community and offer programs like exercise, food subsidies, etc., plus entertainment that brings our community together. The High School is a big "sense of community" builder. And the library is fabulous as they cater to the little kids, teens (before COVID, with the computers) and adults alike.	See Colfax on your map. We have a small town area but the borders extend into the hills. I believe many of the hill folks stick to home, farming, raising animals and such, only coming into town for supplies, not so much for entertainment. However the "in town" group seem to like the entertainment provided at the Theater (pre-COVID), the Railhead (local pub), and various eating establishments plus the little shops which are filled with interesting goods.	We are unique in our care for one another and sense of "small community" feel. We need the traffic that stops in off Hwy 80 (to help the restaurants, gas stations, etc., but like them to come and leave. We do not particularly want to be a big town.	95713	Yes	Yes	No

Tahoe Vista in the Tahoe basin. Boundaries would be Incline Village / NV border on the east and Nevada County on the west and surrounds. Auburn and beyond is not the same community at all.	Other parts of Placer are more suburban (i.e. Auburn and further west) We have a completely different agenda and priorities and values than these towns outside the basin. There is tourism here, and there is not nearly as much tourism outside the basin, and as such, we need different rules and budgets to keep Lake Tahoe safe and protected for future residents to enjoy. Lake Tahoe is a national monument and that has very different needs, unlike the rest of Placer County. 242		My immediate community does not like high-density housing and strip malls; likes nature and open space. We hate seeing native trees destroyed for strip malls. Even in the more developed areas, we'd like to see borders - parks or open space to separate the high-density housing. Yet, too many gated communities take away from the natural beauty	My address is Loomis, but I am in Placer County. I am off of Auburn Folsom near the lake trails and consider the stretch of road along Auburn Folsom from Douglas to Auburn, part of my community. Also, my community is the town of Loomis and surrounding rural areas. Once the town has traffic problems, high density housing, and constant noise, the joy of our rural communities is ruined.	Examples provide the best information. The Walmart off of Sierra College in Rocklin, along with the high density housing that sits behind the store is NOT what my community wants. This is not about Walmart or the stores in that shopping center, but about the housing behind the Walmart. Towns like Rocklin should be required to have a half mile or more break between the high density housing and Loomis or any town that wants a rural, calm feel. And making Auburn Folsom a second freeway is not what the community wants. Allow the rural communities to exist along with the communities offering high-density house, but not by ruining the rural communities.	95650	Yes	Yes	No

254	2021-09-30 3:01:36	As a young adult, at age of sixteen, having keys to my first car, I travelled North and East. My time living on the Mendocino Coast introduced me to the country way of life, a kind and gentle human culture, and environmental ambience. It was here I learned how interconnected the various communities were with their seaside country atmosphere. Later in life, I was spending time up in the Tahoe Basin skiing every winter, every weekend. I came to know the folks up there. I came to find the folks no different than from those of the Mendocino Coast. When I retired I came to rural Auburn, California. I have been associated with this area since 1990. Where I live is high on a hill, residing in an acreage homestead, looking over vast areas of the Sacramento Valley, I am enamored by the friendly folks, the fairs and events, and the every change of the seasons. I never grow tired of this environment and the people I've met here. Preservation of this way of life is my common link.	We are located in North Auburn near Meadow Vista.	Our community of El Dorado County, Nevada County, Placer County, and Folsom all share the same love of our environment, community, and culture. And we all share the same issues necessary to address in maintaining our rural way of life, as well as those of the urban communities. We are all symbiotic.
