Subject: [EXTERNAL] Data showing Covid vaccine adverse events
Date: Sunday, December 12, 2021 9:11:31 AM

Dear board of Supervisors,

While I realize much of what you are doing seems to be moving in from the Covid narrative, you are still promoting and pushing the Covid vaccine on the people in this region.

As of today, I know personally a young college age girl who has lost their eyesight after the shot, another young mother who suffered a massive heart attack after receiving the shot and I have heard from doctors who are seeing large numbers of heart issues in vaccinated patients.

Stop the propaganda promoting masking, vaccinating and all the ridiculous unscientific “health“ measures.

hear this

The Nuremberg Code (1947)

1. Required is the voluntary, well-informed, understanding consent of the human subject in a full legal capacity.
2. The experiment should aim at positive results for society that cannot be procured in some other way.
3. It should be based on previous knowledge (e.g., an expectation derived from animal experiments) that justifies the experiment.
4. The experiment should be set up in a way that avoids unnecessary physical and mental suffering and injuries.
5. It should not be conducted when there is any reason to believe that it implies a risk of death or disabling injury.
6. The risks of the experiment should be in proportion to (that is, not exceed) the expected humanitarian benefits.
7. Preparations and facilities must be provided that adequately protect the subjects against the experiment's risks.
8. The staff who conduct or take part in the experiment must be fully trained and scientifically qualified.
9. The human subjects must be free to immediately quit the experiment at any point when they feel physically or mentally unable to go on.
10. Likewise, the medical staff must stop the experiment at any point when they observe that continuation would be dangerous.

they will take it down 60.7K
