Subject: [EXTERNAL] PASS THE ORDINANCE!!

Please Include this Email as part of the public record for any Board Meeting or Committee Meeting in regards to ordinances between now and the March 8 BOS Meeting!

(PS supervisors, thanks for your personal acknowledgement of receipt - it means a lot!)

Dear Placer County Elected Representatives to the BOS

BE STRONG - Put the Placer County Families - Seniors - Students - Employees & Businesses first! I know you are getting pressured, and the insinuations they make are ugly!! Do not buckle to individuals or organizations that are small picture, and think that they are more compassionate & caring by facilitating and enabling toxic lifestyles and encampments. **You can be most Caring, Compassionate and otherwise morally upstanding by** **Facilitating or Enabling these**

NOT

encampments that are known for crime, drug use & distribution, health risks... (read the crime reports) not transition! Not allowing these fulltime encampments is good for all - including the campers.
Resist the pressure, be strong and yes stick your neck out a bit, it is the right thing to do!!

We need to get the pendulum swinging back the other way focusing on our families, employees, businesses...!
Take our communities back, focus on helping and encouraging transition! Read books like when helping hurts or Toxic Charity, that show that in the long run you are doing more harm than good by enabling and being short sighted!!

Yes there will be a transition period after the ordinance is implemented and enforced. As an elected representative to the Auburn Area Recreation and Park District I have obvious concerns, but I realize short term pains can lead to long term improvements. We have the best law enforcement teams anywhere, all committed to our communities that have ensured they will work to not allow new illegal encampments to flourish & spread. It will help stop folks from immigrating to Placer to take advantage of us, and better allow us to focus on our neighbors in need. **DO THE RIGHT THING!** Be Strong and be supportive of those who elect you, who have worked hard to provide for their families in Placer, for those who have invested and work so hard to employ and provide products and services for our communities, the employees who work in and around these encampments, for those who go to school near these encampments (there are at least 3 Elementary Schools and several day care centers a stone's throw from the Bell Rd Encampment)

Again, I am committed and here to help, be it on committees or ??? We need to work together, be it the public agencies, business associations, transition organizations (such as the Gathering Inn). We can stop the expansion and truly start to focus on reducing numbers and transitioning. Instead of HHS having the fastest growing budget around, we can start focusing on other areas.

Thank you for your support, being proactive and focused on the long term success of Placer County Residents regardless of what demographic they fall into!

Keep Smilin'  Scott (Holbrook) Father, North Auburn Resident & Homeowner, Auburn Rec District Board Member, Concerned & Caring Citizen

Just some FYI - Not part of public comments

The city's Environmental Services Department hauled away filthy furniture, rotten food, car batteries, gasoline, camping stove fuel and other dangerous

or unhealthy items. "A lot of living mice," Environmental Services Department Deputy Director Renee Robertson said about what was found in and around the tents. "A lot of rodent urine and feces in furniture that had been accumulated inside the tents where folks were storing food and other items. "There are tents on pallets, and that's' where the mice are usually living, and then they go up into the tents for the food items and then go back down," she said. "We saw a lot of that. Roaches as well."

"Prosecutors in Sacramento County, California, filed charges in the killing of a woman with autism whose partly nude body was found hanging from a tree in a homeless encampment after she was kidnapped and raped"

"A **38-year-old woman was fatally shot Sunday night** at an East Oakland homeless camp",

Officials in Sausalito declared a state of emergency Thursday in regard to the city's homeless population, one day after an explosion and fire at an encampment Wednesday night led to an arrest. "Conditions of extreme peril to the safety of persons and property now exist in the City of Sausalito caused by dangerous and sometimes criminal activities at and surrounding the area designated at Marinship Park for transitional overnight sleeping

A man was arrested for allegedly fatally stabbing another man who intervened in a dispute between the suspect and his girlfriend at a homeless encampment

Shortly after 3 p.m., officers were called to an encampment near Kennedy Park after a reported attack there, according to Sgt. Nick Dalessi. One man confronted another over a money dispute and then stabbed the victim in the leg with a knife before the victim used a stick to defend himself, causing the attacker to drop the knife and flee, Dalessi said.

171 grams of fentanyl/heroin and more found in homeless camp search

A relatively clean **homeless** encampment just off of Oceanside Boulevard has a dark side involving drugs and illegal weapons, Oceanside Police ...

Los Feliz encampment: Homeless camp or drug dealing hub?

LOS FELIZ, LOS ANGELES (KABC) -- Los Feliz residents who live near a homeless encampment say the city continues to treat it like a group of unhoused people, when it's actually a street gang-run drug dealing hub.

The encampment sits at the corner of Berendo Street and Hollywood Boulevard. The Los Angeles Police Department confirms that the La Mirada Locos gang has been selling drugs from the camp.

We have made, just in the last 30 days, arrests for guns, narcotics, narcotics felony warrants," said LAPD Senior Lead Officer Leo Rey about the gang members who have set up shop within the collection of tents.
