County of Placer

**TO:** Honorable Board of Supervisors **DATE:** March 22, 2022  
**FROM:** Todd Leopold, County Executive Officer  
**BY:** Dave Atkinson, PE, Assistant Director of Emergency Services  
**SUBJECT:** Resolution to Reaffirm a Local Emergency in Placer County due to the December 26, 2021 Winter Storms

---

**ACTION REQUESTED**

Adopt a Resolution to reaffirm a local emergency in Placer County due to the December 26, 2021 winter storms

**BACKGROUND**

The winter storms that began the night of December 26, 2021, resulted in record setting amounts of snow in the foothills and mountain areas of Placer County. Extreme amounts of snow combined with high winds resulted in downed trees and powerlines. At Donner Pass, officials with the University of California Berkeley's Central Sierra Snow Laboratory reported snowfall from these storms "smashed" the snowiest December record of 179 inches, set in 1970, for a total of 214 inches.

This set of storms left thousands of Placer County residents without power for several days. Roads were impassible due to snow accumulation. This included Interstate 80 which was closed for multiple days due to white out conditions, heavy snow, and downed power lines. These impacts resulted in numerous calls for assistance from first responders, affecting life safety and public safety resources.

Multiple levels of California's Standardized Emergency Management System (SEMS) were activated to provide an effective and coordinated response to the multitude of impacts. These actions included CalFire's establishment of an Incident Command System (ICS) structure to streamline command and control of the regional fire agency storm response. Acting as the SEMS Operational Area, the Placer County Office of Emergency Services activated its Emergency Operations Center from December 27, 2021 to January 10, 2022, to support the needs of emergency and public safety agencies.

Two days into the response, it became clear that there would be significant costs associated with the response efforts by the various local agencies as well as the potential for significant damage to critical infrastructure. As allowed by County Code, the Director of Emergency Services proclaimed a local emergency due to the December 26, 2021 winter storms on December 29, 2021.

Honorable Board of Supervisors

March 22, 2022

Resolution to Reaffirm a Local Emergency in Placer County due to the December 26, 2021  
Winter Storms

Page 2

Conditions created by the winter storms continue to exist and constitute a local emergency. Public right-of-ways still contain significant debris from fallen trees. Residents throughout the county are working to clear substantial debris from their properties before fire season, utilizing options including the Residential Chipper Program and transporting debris to transfer stations. Additionally, utility agencies are working to fully repair powerlines and water infrastructure, including drainage routes and the Boardman canal. Both county code and state law require that your Board review the emergency proclamation every sixty (60) days and either reaffirm or terminate the local emergency proclamation. Reaffirmation of this Local Emergency Proclamation will enable Placer County and partner agencies throughout the county to seek and obtain state and federal funds if available and ensure the County's resources and economy have the means to endure this challenge more effectively.
