Placer County Probation Department 2016-18 Business Summary

Executive Statement

The Placer County Probation Department's 2018 Business Summary is a brief overview of some of the many services the department provides to the residents of Placer County while carrying out its public safety mission. We hope this summary reflects the department's vision and mission to effect positive change in our adult and juvenile probationers. To provide the best context for the information, we are including data from 2016-2018 to aid the illustration of any trends.

Through safe and secure detention, alternatives to incarceration, and the continued use of effective, evidence-based probation practices, we afford adult and juvenile probationers the opportunity to restore victims, examine their actions, and make changes in their behavior to reduce recidivism.

The department continues to implement evidence-based best practices throughout its operations, most recently evidenced through the Placer Re-Entry Program (PREP) expansion of services to individuals on probation in the Tahoe Basin, which would not be possible without the dedication of probation staff and staff from the Sacramento County Office of Education who we've partnered with to provide these services.

Since October 1, 2011, Probation has been mandated to supervise a new population of adult offenders as a result of State Realignment. Recent reforms will continue to have significant impacts on both juvenile and adult community corrections. The department continues to examine core components (or Programs) of our system to more effectively quantify measurements of our mission critical functions.

Probation's 149 employees are essential to carrying out the department's mission and vision. Our commitment to public safety and to providing probationers the opportunity and tools to change their behavior remains our department's focus. As we face the challenges and demands of the coming year, the Probation Department will continue to implement efficiencies that result in juvenile and adult reforms to ensure public safety.

We will continue to implement and enhance effective solutions to the challenges and demands we face with the ongoing support of the Board of Supervisors, the County Executive Office and our many collaborative partners including the County Departments partnering in the criminal justice system, community stakeholders, and our dedicated and committed workforce.

Court Services

The selection of an appropriate sentence is one of the most important decisions made in the criminal justice system. Court services supports judicial officers in making sentencing decisions and assists corrections and community corrections officials in supervising defendants. Court Services are State Mandated and consist of Probation Officers preparing written reports for the Court by conducting a factual and thorough investigation into a defendant's behavior, history, assets, impact on victims, mitigating and aggravating circumstances, assessing future risk, and identifying needs to reduce reoffending behavior. Additionally, these reports provide judicial officers with reasoned sentencing options which conform to statutory and Case Law requirements. Reports include the terms and conditions of probation, if eligible, to promote accountability and community safety, and rehabilitation for the offender utilizing evidence-based programming. Through the Court process, Probation works to ensure victims' rights and establish victim restitution.

Specific service modes include Supervised Release and Home Confinement with Electronic (GPS) Monitoring. Probation Officers enforce the terms and conditions of release which may include: making court appearances, abstaining from the use of alcohol and drugs, search and seizure, and stay away orders from victims.

Probation Officers are mandated by Federal and State government regulation to have in person contact with these youth on a monthly basis. These costly, out of home placements are a last resort and often avoided by the array of interventions employed by the Probation Department and partner agencies. Additionally, probation supervises youth that fall under AB12; this federal legislation grants foster care services to youth over age 18 to promote positive transition back into communities as successful adults.

Delinquency/Crime Prevention Services

Delinquency/Crime Prevention Services include non-mandated diversion services that target youth who are beyond parental control or are otherwise at risk of delinquency. Diversion Programs include: Citation and Traffic Hearings; Evidence Based Programs; the Placer County Sheriff's Activities League; the Roseville Police Activities League; the Folsom Prison Program; the Youth Resource Fair; School Attendance Mediation; Informal Probation to ensure victim restitution or Community Service is completed; and the Crisis Resolution Center. Additionally, the Juvenile Division provides access to structured community resources that assist youth and family members to build and utilize their own family resources and better equip them to become independent of the Juvenile Justice or Child Welfare Systems.

These investigations and reports assist Superior Court Judges in making informed dispositional decisions. This report includes the Probation Officers' dispositional recommendations, including the terms and conditions of probation, to provide rehabilitation for the youth utilizing evidence based programming and accountability to insure community safety. Through the Court process, Probation works to ensure victim rights and establish victim restitution. The Probation Officers also complete the evidence-based risk and needs assessment on each youth, designed to create and implement case plans focused on addressing the youth's identified behavioral indicators in addition to social and educational needs. Alternative disposition pre-adjudication supervision services allow youth to be placed on any of several different programs in lieu of, or in addition to, confinement. These options include: home supervision and electronic (GPS and/or alcohol) monitoring.
