

**MEMORANDUM**  
**HEALTH AND HUMAN SERVICES**  
**ANIMAL SERVICES DIVISION**  
County of Placer

**TO:** Honorable Board of Supervisors **DATE:** April 19, 2022  
**FROM:** Robert Oldham, Director of Health and Human Services  
**BY:** Joey Wojtowicz, Staff Services Analyst II  
**SUBJECT:** Umbrella Contract for Emergency Veterinary Services

---

**ACTION REQUESTED**

Authorize an umbrella agreement for the provision of emergency veterinary services by an identified list of providers from July 1, 2022 through June 30, 2024 in an amount not to exceed \$100,000; approve the provider list and authorize the Director of Health and Human Services, or designee, to execute any needed provider agreements, amendments, or other documents utilizing applicable County processes with Risk Management and County Counsel concurrence.

**BACKGROUND**

Emergency veterinary services are necessary when Animal Control Officers, or a Good Samaritan, picks up an injured animal in the community. The Food and Agricultural Code defines the degree of veterinary care necessary when an Animal Control Officer impounds an animal. The animal is taken to the nearest veterinarian who is willing to perform services for the County, after authorization by the Director of Animal Services, or designee. These services are performed at the usual and customary fees for each veterinary practice. As these services may be provided by any willing veterinary office, the providers may include any Placer County veterinarian, allowing Animal Services to obtain the best and most cost-effective care.

Annually, an estimated 250 injured and homeless animals require treatment. Over 73 percent of these animals recover and are either reunited with their owner or, if stray, adopted out. Due to the service authorization and review process, and the collaboration of the veterinary partners, the average cost per visit is less than \$150 and the annual total cost of providing this care is usually under \$40,000.

The veterinarians willing to perform these services for the County change as the veterinarians change within the community. In order to maximize the number of facilities providing services to these animals, an umbrella contract is again being recommended. The umbrella contract allows multiple providers to be tied to one aggregate total contract amount. This offers the County the flexibility to use the most appropriate provider available at the time that services are needed, within the funding limits authorized by the Board. The current list of 13 providers is shown in Attachment A. Animal Services has worked closely with the veterinary community over the past few years to increase the number of emergency services providers.

**FISCAL IMPACT**

Funding for these services is included in the Department's FY 2022-23 Budget and the Department's FY 2023-24 Budget. Funding is provided by County (\$75,000) and reimbursements from cities and individuals (\$25,000). These mandated services are funded with County General Funds (75%) and reimbursements from cities and individuals (25%).
