

BUILDING DEPARTMENT FEE SCHEDULE

VALUATION. The determination of value or valuation under any provision of the Placer County Code shall be made by the Chief Building Official. The total valuation to be used within Fee Table 3-A shall be determined by using the ICBO Building Standards Valuation Data dated April 2002, as adopted by the Board of Supervisors and as adjusted by the Chief Building Official each July 1st according to the State of California Department of General Services California Construction Cost Index (CCCI) or as authorized by applicable laws. Valuation not listed in the Building Valuation Data shall be valued per the Building Valuation Data Supplemental below. The Building Valuation Data Supplemental may be expanded administratively by the Chief Building Official in order to clarify or cover additional types of work and situations.

Fees based on hourly rates shall be adjusted by the Chief Building Official each July 1st according to the State of California Department of Industrial Relations "Consumer Price Index – California for All Urban Consumers" for the most recently available twelve (12) month reporting period. Any fees may be modified from time to time by resolution of the Board of Supervisors. The Chief Building Official shall maintain the current fee schedule; the Chief Building Official shall make the current fee schedule available for public review upon request.

The valuation to be used in computing the building permit fee shall be the total valuation of all construction work for which the permit is issued, as well as all roofing, mechanical, electrical, plumbing heating, air conditioning, elevators, fire extinguishing systems, racking systems, and any other permanently installed equipment affixed to the building or structure.

The valuation of grading, retaining walls, paving and other site work, and any demolition work, shall be included unless such work was included in other permits issued by the Building Services Division or other County departments.

The valuation data is used and intended to establish consistent criteria for calculating permit fees, and the calculated total valuation does not necessarily reflect actual costs. The County Assessor does not rely on this cost, but performs independent assessments of permitted work.

Where multiple valuation rates are given, the higher value shall apply for all occupancies larger than three thousand (3000) square feet (includes both finished and unfinished areas) and all buildings located above five thousand (5000) feet elevation regardless of square footage. Shell buildings and unfinished rooms/spaces shall be valued no less than eighty (80) percent of the above valuation. Each subsequent tenant improvement (TI) and/or permits to finish an area will be charged an amount based on the **valuation listed in the most current Building Valuation Data Supplemental**

Where the value of the proposed work is not listed in the ICBO publication **or the Building Valuation Data Supplemental** the valuation will be based upon the equivalent contract amount.

TABLE 3-B

Permit fees as referenced and based on valuation for Plumbing, Electrical, and Mechanical permits shall be computed individually and paid as follows: This table does not apply to residential permits \$4,000.00 or less.

VALUATION	BASIC PERMIT FEE
Residential (R-3 and Accessory):	.001 x valuation
Commercial and Industrial:	
\$ 1—\$ 500,000	\$.001 x valuation/ minimum \$138.85
\$ 500,001—600,000	\$500 + (.00065 x valuation exceeding \$500,001
\$ 600,001—700,000	\$565 + (.0006 x valuation exceeding \$600,001

(1) Projects \$5,000,000 and greater pay a permit fee of 1% (.01) x valuation in addition to the plumbing, electrical, and mechanical inspection fees in Table 3-B. The amount in excess of the basic fee computed by Table 3-A and Table 3-B is subject to cost accounting on an hourly basis and refunds made available for any funds not used between the basic fee and the 1% permit fee.

For example, a \$5,000,000 project would pay a 1% permit fee of \$50,000. Tables 3-A and 3-B calculates a basic fee of \$23,750 [(5,425 + .0028 x 4,000,000) + (775 + .0004 x 4,000,000) x 3 (P,E,M)]. Department time on the project would be cost accounted. The amount between the 1% deposit and the basic fee (\$50,000 minus \$23,750) would fund department costs above the basic fee. Any unused portion above the basic fee would be returned at the final of the project.

(2) Any project receiving a higher than normal level of service, such as extended hours to accommodate an expedited schedule, or continuous inspection, must pay the associated costs.
