Corner --- Left as found Found and tagged Established Reestablished Rebuilt

Identification and type of corner found: Evidence used to identify or procedure used to establish or reestablish corner:

The original rebar set at the rear common corner of Lots 10/11 was destroyed during fence construction. All other record monuments for Lots 10 and 11 were recovered and checked. The southwest corner of Lot 11, the angle point at the rear of Lot 10 and the reference monument set at the front of Lots 10/11 were used to re-establish the position of the rear corner of Lots 10/11.

A description of the physical condition of the monument as found and as set or reset:

No physical evidence of the original rebar was found. A steel fence post now occupies the position of the rear corner. A reference monument was set on the common line of Lot 10/11 at a 15.00 foot offset to the rear corner. The reference monument is a 3/4" iron pipe and plastic plug stamped L.S.6376.
