## Nevada, Yuba, Placer and Sierra Counties Burn Suspension Lifted

**Auburn-** Effective Wednesday, November 9, 2022, at 8:00 AM the burn suspension in Nevada, Yuba, Placer and Sierra Counties will be lifted. CAL FIRE Nevada-Yuba-Placer Unit Chief Brian Estes is formally cancelling the burn suspension and advises residents that they may resume burning on permissible burn days (Open Burning). Non-residential air quality burn permits may be required, contact your local air district for burn permits.

Cooler temperatures, higher humidity and winter weather have helped to begin to diminish the threat of wildfire. Property owners and residents are asked to use caution while conducting debris or agriculture burns, follow all guidelines provided, and maintain control of the fire always. Individuals can be held civilly and/or criminally liable for allowing a fire to escape their control and/or burn onto neighboring property.

**Residents wishing to burn MUST verify it is a permissive burn day prior to burning by contacting:**

- Nevada & Sierra Counties – Northern Sierra Air Quality Management District.  
Northern Sierra's burn day website: <https://myairdistrict.com/>.  
Western Nevada County: (530) 274-7928  
Eastern Nevada County: (530) 582-1027  
Western Sierra County: (530) 289-3662  
Eastern Sierra County: (530) 994-3561
- Yuba County – Feather River Air Quality Management District: (530) 741-6299  
Agricultural Burn number is 530-701-7462

Continued

- Placer County – Placer County Air Pollution Control District Auburn area (including all cellphone users): 530-889-6868. Outside Auburn, toll-free: 800-998-BURN (2876). Placer's burn day website: <http://www.placerair.org/burnday>

### **Pile Burning Requirements**

- Only dry, vegetative material such as leaves, pine needles and tree trimmings may be burned.
- The burning of trash, painted wood or other debris is not allowed.
- Do **NOT** burn on windy days.
- Clear a 10-foot diameter down to bare soil around your piles.
- Have a shovel and a water source nearby.
- An adult is required to be in attendance of the fire always.

Safe residential pile burning of forest residue by landowners is a crucial tool in reducing fire hazards. State, Federal, and local land management and fire agencies will also be utilizing this same window of opportunity to conduct prescribed burns aimed at improving forest health on private and public lands.

For more information on burning, visit the CAL FIRE website at [www.fire.ca.gov](http://www.fire.ca.gov).
