Placer County Community Health Status Update

January 2014
MCAH Goals

• All children are born healthy to healthy mothers
• No health status disparities among racial/ethnic, gender, economic and regional groups
• A safe and healthy environment for women, children, and their families
• Equal access for all women, children, and their families to appropriate and needed care within an integrated and seamless system
How Are We Doing?
Let’s Look at the **Data**
<table>
<thead>
<tr>
<th>Color</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red %</td>
<td>Statistically worse than the state</td>
</tr>
<tr>
<td>Blue %</td>
<td>Statistically better than the state</td>
</tr>
<tr>
<td>Brown %</td>
<td>About the same, statistically, as the state; or, not enough is known about the data to compare to the state (due to, e.g., sample size, data availability, and/or data analysis resources)</td>
</tr>
<tr>
<td>Black %</td>
<td>Statistically different than state, but not easily classified as better or worse</td>
</tr>
</tbody>
</table>
Access to and Utilization of Care

COMPARING PLACER TO CALIFORNIA

- Health insurance
- Prenatal care
- Doctor visits
- Dental visits
- Medi-Cal enrollment
- Childhood immunizations

Assessing the Data
CRITERIA

The issue reflects a condition or outcome that is severe or affects large numbers of people.

The issue reflects an unmet need (i.e. an underserved population or underserved area).

There are resources or assets in the community that can be mobilized to address the problem.

Political will – there are partners willing to address the problem in the community.

When You Are Ready to Prioritize
Time to get to work...
