

CALIFORNIA CERTIFIED ENVIRONMENTAL LABORATORIES

Environmental laboratories are certified under State Water Resources Control Board's Environmental Laboratory Accreditation Program (ELAP). Click [here](#) for a list of the current laboratories with California ELAP certification.

You can find this list by visiting

https://www.waterboards.ca.gov/drinking_water/certlic/labs/ and clicking on the "Geographical Information System (GIS) Map" listed on the right hand side under the information section.

To determine the type of certified testing offered you must click on the laboratory. Those seeking drinking water bacteriological (Total Coliform and E. coli) testing, often referred to as "potability testing" would need to choose a laboratory that is certified for "101: Microbiology: Drinking Water."

The following nearby laboratories currently offer drinking water bacteriological testing as of February 2018:

- Alpha Lab (Elk Grove)
 - 916-686-5190
- BSK Laboratories (Rancho Cordova)
 - 916-853-9293
- Cranmer Lab (Grass Valley)
 - 530-273-7284
- California Laboratory Services "CLS" (Rancho Cordova)
 - 916-638-7301
- Continental Water Laboratory (Sacramento)
 - 916-379-2323
- Diamond Laboratory (Auburn)
 - 530-823-0354
- Eurofins Eaton Analytical (Folsom)
 - 916-605-3373
- Excelchem Laboratory (Rocklin)
 - 916-543-4445
- Silver State Analytical (Reno)
 - 775-825-1127
- Sparger Technology (Sacramento)
 - 916-369-7688
- Tahoe Truckee Sanitation Agency "TISA" Truckee)
 - 530-587-2525
- Western Environmental Testing Lab "WET Lab" (Sparks, NV)
 - 775-355-0202
