EMERGENCY NOTIFICATION PLAN FOR SMALL WATER SYSTEMS

Section 116460, California Health and Safety Code, requires that every person who supplies water to a user for domestic purposes submit an emergency notification plan to the local health authority. This plan is to be implemented whenever the health authority determines that your water supply fails to meet quality standards and represents an immediate danger to the health of the user. It is recommended that this same plan be used for outages and rationing resulting from natural or man made disasters.

WATER SYSTEM NAME: _____ **SYSTEM #:** _____

Site Location: _____

Mailing Address: _____

Street # or PO Box #, City & Zip Code *MUST* be included
