

# MEMORANDUM

DEPARTMENT OF PUBLIC WORKS

County of Placer

TO: BOARD OF SUPERVISORS

DATE: October 24, 2006

FROM: KEN GREHM /<sup>KSO</sup>PETER KRAATZ

SUBJECT: CALIFORNIA TAHOE CONSERVANCY SITE IMPROVEMENT / ACQUISITION  
GRANT APPLICATION FOR THE WEST SUNNYSIDE EROSION CONTROL  
PROJECT

---

## ACTION REQUESTED / RECOMMENDATION

Adopt a Resolution approving preparation for California Tahoe Conservancy (CTC) Site Improvement/Acquisition grant application and authorize the Director of Public Works to execute the CTC grant document for the 2006-2007 grant funding cycle.

## BACKGROUND / SUMMARY

In order to implement water quality improvement projects in the Lake Tahoe Basin, the CTC has developed a site improvement/acquisition grant component to their annual Soil Erosion Control Grant Program that covers project final project planning, design, and construction costs after a project plan is developed by County staff and accepted by the CTC. For the 2006-2007 grant funding cycle, Public Works has identified a high priority Environmental Improvement Program (EIP) project that warrants this type of grant funding. Currently, the West Sunnyside Erosion Control Project is in the planning phase, but preferred alternative design is complete and grant funds are sought for final design and acquisition (see attached project location map). All aspects of final project planning through final design as well as construction are eligible for coverage under this grant program. The CTC requires a resolution of approval by the governing body as part of the site improvement/acquisition grant application package.

## ENVIRONMENTAL

The approval of this resolution will not commit the County to construct the West Sunnyside Erosion Control Project, or any other project, or alter the physical environment in any way. Thus, this action is not considered a project under Section 21065 of the Public Resources Code. Any project that will use any awarded funds will require environmental review and Board approval.

## FISCAL IMPACT

Placer County is requesting up to \$750,000 of jurisdictional Soil Erosion Control Program site improvement/acquisition grant funding to cover design, acquisitions, and some construction costs of the project. The CTC grant approval is scheduled for March 2007. The effort for planning this project is included in the Fiscal Year 2006-07 Budget. The final design and construction will be budgeted in the Fiscal Year 2007-08 Budget. Additional grant funds that will be sought to fully fund this project through construction are estimated to be \$5 million.

Signed and approved by me after its passage.

\_\_\_\_\_  
Chairman, Board of Supervisors

ATTEST:  
Clerk of said Board

\_\_\_\_\_  
\_\_\_\_\_  
BE IT HEREBY RESOLVED by the Board of Supervisors of the County of Placer, State of California, that this Board approves and authorizes the preparation of the California Tahoe Conservancy Soil Erosion Control Grants Program Site Improvement and Acquisition grant applications for the West Sunnyside Erosion Control Project for up to \$750,000. Upon award of California Tahoe Conservancy planning grants, the Board agrees to implement the projects in a manner consistent with the objectives of the California Tahoe Conservancy Soil Erosion Control Grants Program Announcement and Guidelines. This Board further authorizes the Director of Public Works to execute all agreements, contracts, and other documents required to obtain and administer these funds.
