

MEMORANDUM

DEPARTMENT OF PUBLIC WORKS
County of Placer

TO: BOARD OF SUPERVISORS DATE: March 20, 2007
FROM: KEN GREHM / ^{YD} KEVIN ORDWAY
SUBJECT: UTILITY AGREEMENT WITH SAN JUAN WATER DISTRICT, AUBURN-FOLSOM ROAD WIDENING, SOUTH PHASE PROJECT

ACTION REQUESTED / RECOMMENDATION

Adopt a Resolution to authorize the Chairman of the Board to execute an agreement with San Juan Water District in an estimated amount of \$750,000 to replace their water line in conjunction with the Auburn-Folsom Widening, South Phase project.

BACKGROUND / SUMMARY

The San Juan Water District (SJWD) would like to replace their current water line. The water line is past its useful life and is insufficient to serve the community's needs. The water line is currently located in the Auburn-Folsom Road highway easement. DPW staff and SJWD agree that it would be advantageous to perform the utility installation work concurrently with the Auburn-Folsom Road Widening Project to minimize impacts to the public and deliver the most cost effective project.

San Juan Water District has hired the County's project design consultant, Dokken Engineering, to design the new water line. The new water line plans have been incorporated with the County's South Phase plans. Construction for the water line will be performed under the County's construction contract. Work related to the installation of the water line will have separate contract line items which will be tracked. The SJWD will pay 100% of the costs for designing and constructing the water line. SJWD will provide inspection for the water line during construction.

ENVIRONMENTAL

The Board of Supervisors certified and approved the Auburn-Folsom 4-Lane Widening Final Environmental Impact Report with findings on June 22, 2004. San Juan Water District is the lead agency for the proposed water line and will conform with the California Environmental Quality Act prior to the beginning of construction.

FISCAL IMPACT

All costs associated with the San Juan Water District water line replacement work will be reimbursed by San Juan Water District and is estimated to cost \$750,000.
