

MEMORANDUM

DEPARTMENT OF PUBLIC WORKS

County of Placer

TO: BOARD OF SUPERVISORS
FROM: KEN GREHM / PETER KRAATZ

DATE: May 18, 2010

SUBJECT: **SUNNYSIDE BUS SHELTERS, CONTRACT NO. 1093 - APPROVE PLANS AND SPECIFICATIONS, ADVERTISE BIDS, AND AWARD CONTRACT**

ACTION REQUESTED / RECOMMENDATION

Approve the project plans and specifications for use in bidding and construction of two bus shelters and authorize the Department to advertise for bids; and adopt a Resolution authorizing the Director of Public Works, with County Counsel and Risk Management review and approval, to execute the Sunnyside Bus Shelters Construction Contract No. 1093 to the lowest responsible and responsive bidder in an amount not to exceed \$103,400 and authorizing the Director of Public Works to approve and sign contract change orders up to an amount not to exceed 10 percent of the lowest responsible bidder's proposed cost.

BACKGROUND / SUMMARY

The Sunnyside Bus Shelters project is located in the Sunnyside area of Lake Tahoe near Fountain Avenue. Construction will include two bus shelters to be located at existing bus stops in the Sunnyside area along Highway 89 in both the north and south directions. These bus stops are served by the Department's Tahoe Area Regional Transit (TART) public bus system.

The Department has been working closely with Caltrans to incorporate the shelters into the State's upcoming water quality improvement project for Highway 89. The proposed structures are similar to the bus shelter constructed in Squaw Valley last summer.

The current facility consists of an open air waiting area. These bus stops serve transit riders to and from the Sunnyside area. Improvements will provide a safer waiting area that allows patrons to wait for the bus inside a protected enclosed structure. The improvements also include ramps, sidewalks, and curbs for accessibility.

ENVIRONMENTAL

This project is categorically exempt from the provisions of CEQA under the following sections: Section 15301, Existing Facilities, Class 1; Section 15303, New Construction or Conversion of Small Structures Class 3.

FISCAL IMPACT

These two shelters are part of a larger program to construct five shelters this season. The total project cost for the five shelters is estimated to be \$246,700 with construction costs for the Sunnyside shelters estimated at \$94,000. The project is fully funded through grants from the North Lake Tahoe Resort Association and traffic mitigation fees. Funding for the construction of this project is included in the Fiscal Year 2009-10 Budget.
