

MEMORANDUM

DEPARTMENT OF PUBLIC WORKS
County of Placer

TO: BOARD OF SUPERVISORS DATE: April 9, 2013
FROM: KEN GREHM / RICHARD MOOREHEAD
SUBJECT: **SPEED LIMITS FOR VARIOUS PLACER COUNTY ROADS**

ACTION REQUESTED / RECOMMENDATION

1. Conduct a Public Hearing approving an Engineering and Traffic Survey on various County roadways. There is no net County cost.
2. Adopt an Ordinance modifying Chapter 10, Article 10.04 of the Placer County Code pertaining to speed limits.

BACKGROUND / SUMMARY

The Board, as the local authority under the California Vehicle Code, has the authority to set and modify speed limits by Ordinance to facilitate the orderly movement of vehicles that would be safe as determined by an Engineering and Traffic Survey. These surveys are conducted on a periodic basis by the Department of Public Works (DPW) to review existing speed zones and determine if certain roadways require the implementation of new speed zones. The speed survey methodology is dictated by State law, and is described in detail in the Engineering and Traffic Survey (ETS) dated April of 2013, submitted to the Board under separate cover and on file with the Clerk of the Board. The benefits of valid Engineering Traffic Surveys are that it allows the CHP to radar enforce speed limits. Public Works also solicited review with the County's advisory committees and the California Highway Patrol (CHP) who all support DPW recommendations. DPW periodically meets with the local court system to ensure radar enforceability on the specified County roadways.

The last engineering and traffic survey was approved on June 8, 2010. Within the past year, the Department prepared an Engineering and Traffic Survey report to review the speed zones on roads identified by Department staff, Board members, the public and the Highway Patrol. The attached Exhibit A summarizes recommendations of the survey report to set or modify speed limits on several County roads. Of the fourteen (14) roadway segments studied, eight (8) will have higher speed limits, two (2) will have lower speed limits, and four (4) will remain unchanged. Some of the proposed changes are due to State law limiting local jurisdictions discretion on setting speed limits. All of the roads will be radar-enforced. The CHP, Foresthill Forum, Meadow Vista MAC, Newcastle Ophir MAC, North Auburn MAC, Granite Bay MAC, Rural Lincoln MAC, Weimar/Applegate/Colfax (WAC) MAC were attended so that they could be briefed on the changes. Each entity has expressed support over the proposed speed limits.

ENVIRONMENTAL

This action is categorically exempt pursuant to Section 15301(c) of the CEQA guidelines, Operation of an Existing Highway.

FISCAL IMPACT

The adoption of this Ordinance will have a minor fiscal impact. The cost to change speed limit signs can be absorbed in the existing road maintenance budget.
