

Housing Forum

Tuesday, March 20, 2018 | 4:00 to 6:00 p.m.

Placer County CDRA Building | 3091 County Center Drive, Auburn

Affordable housing is a challenge throughout California - learn about some tools in the toolbox to address this issue locally

This two-hour housing workshop will focus on small-scale, high-quality infill residential projects that fall on the spectrum between low-density, single-family neighborhoods and large, high-density apartment complexes. Examples will include bungalow courts, duplexes, live/work units and other attainable housing types for our low to middle-income-earning households.

Very few of these types of houses have been built in recent years due in part to regulatory constraints, automobile-dependent development trends and incentives for single-family home ownership.

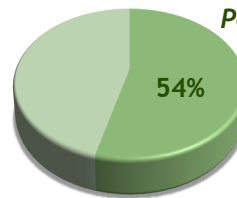

This workshop will provide an overview on the design and development of this type of housing. Attendees will be invited to participate in a discussion of challenges and opportunities to develop diverse housing types within unincorporated Placer County.
