**ALPINE SIERRA SUBDIVISION
DRAFT ENVIRONMENTAL IMPACT REPORT – PUBLIC REVIEW AND
COMMENT (PSUB 20130004)
SUPERVISORIAL DISTRICT 5 (MONTGOMERY)**

Conduct a public hearing to receive comments on the Draft Environmental Impact Report (DEIR) for the Alpine Sierra Subdivision project. The opportunity to discuss the merits of the project will occur at subsequent hearings on the project entitlements. The project applicant, Chris Nelson, BCNC LLC, is proposing to develop a Planned Unit Development on a 47.21-acre site located within the Alpine Meadows General Plan area, a community plan area that encompasses approximately 3,600 acres of land 12 miles south of the town of Truckee and 5 miles northwest of Tahoe City.

The Draft EIR includes a project level analysis of two project alternatives that are evaluated at an equal level of detail and are referred to as Alternative A and Alternative B. Alternative A, the applicant's originally proposed project, would create a Planned Unit Development consisting of 47 single-family residential units and five secondary dwelling units. The eastern portion of the project site, consisting of Lots 1 through 27, would include 27 lots for development of executive style custom homes. These lots would range in size from 0.41 to 1.0 acres and would average 0.70 acres. Up to five of the lots would include

construction of secondary dwelling units. The western portion of the project site would include 20 lots comprised of 14 halfplex units and six custom cabin home site lots. The halfplex lots would range in size from 0.08 to 0.17 acres and the custom cabin home lots would range in size from 0.19 to 0.38 acres. Alternative B is a reduced density version of the applicant's originally proposed project and would create a Planned Unit Development consisting of 38 single-family residential units and five secondary dwelling units on the 47.3-acre project property. The eastern portion of the project site, consisting of Lots 1 through 28, would include 28 lots for development of executive style custom homes. These lots would range in size from 0.40 acres to 0.99 acres and would average 0.65 acres. Up to five of the lots would include construction of secondary dwelling units, the same number proposed under Alternative A. The western portion of the project site would include 10 custom cabin home sites ranging in size 0.22 to 0.4 acres with an average lot size of 0.29 acres.

A copy of the Draft EIR is available for review (public review period is open from September 19, 2017 through November 3, 2017) during normal business hours at the Tahoe City Library (740 North Lake Boulevard, Tahoe City, CA), the Placer County Community Development Resource Agency offices in Tahoe City (775 North Lake Boulevard, Tahoe City, CA) and in Auburn (3091 County Center Drive, Auburn, CA).
