Pursuant to Placer County Code Section 17.62.170, the Planning Commission will consider the Revocation of the Variance (VAA-3968) that allows a reduction to the number of parking spaces required for the 594 square foot expansion of a commercial building. At a meeting on October 17, 2002, the Placer County Zoning Administrator approved the Variance (VAA-3968) subject to the findings and conditions of approval as required by Placer County Code Section 17.60.100.D.2. The permittee, Gary Davis, is not in compliance with Condition of Approval #4, which states: *“The applicant shall contribute to the provision of new public parking in the Tahoe City area through payment of an amount equal to the estimated cost of providing 3 parking spaces in the area (the 3 parking spaces are based on the proposed addition of 594 square feet of office space being added, with a ratio of 1 space per 250 square feet). The estimated cost is \$15,000 per parking space and shall be paid to Placer County and used solely for the provision of new parking spaces in the area. An alternative contribution of land, transit facilities, or off-site parking of equal value may be considered in lieu of the payment of \$45,000. The DRC shall consider any such alternative and approve or deny it.”* The Zoning Administrator later reduced the cost per space from \$15,000 to \$10,000 (\$30,000 total). A Building Permit was issued and construction was completed, but to date, this fee has not been paid.
